EDUCATION

Master of Science, Data Science and Analytics

Dec 2024

San Jose State University, California

Awarded **Tuition Scholarship** by the San Jose State University Research Foundation

Related Courses: **Database Systems for Analytics, Math Methods for Data Analytics, Data Visualization, Big Data, Machine Learning Technologies, Data Mining, Deep Learning**

Bachelor of Technology, Information Technology

2021

Indus Institute of Technology and Engineering (IITE), Ahmedabad, India

SKILLS

- **Programming & Analysis:** Python (Pandas, NumPy, Scikit-learn), SQL, R, Statistical Analysis, A/B Testing, Regression Analysis
- **Business Intelligence:** Tableau, Power BI, Looker, Excel Advanced (Pivot Tables, Formulas, Macros, Data Validation), Interactive Dashboards, Real-Time Reporting, Data Storytelling
- **Database & Cloud:** PostgreSQL, MySQL, SQL Server, Azure Synapse, AWS, Snowflake, ETL, Large Dataset Management
- **Analytics & Methods:** Data Mining, Predictive Modeling, Forecasting, Trend Analysis, KPI Development
- **Collaboration & Methodologies:** Agile/Scrum, Cross-Functional Collaboration, Stakeholder Management

PROFESSIONAL EXPERIENCE

Data Science Intern, *Kaiser Permanente, Los Angeles, CA*

Jun 2025 – Sep 2025

- Created **interactive Power BI dashboards** providing **real-time insights** into financial performance metrics for **10-year investment scenarios**, enabling leadership to monitor trends and make **informed strategic decisions**
- Developed **forecasting models** using **statistical methods** and **System Dynamics** to predict ROIC trends, capital turnover ratios, and operating margins across Kaiser Permanente markets
- Built **end-to-end data pipeline** using **.NET Core APIs**, managing large datasets across multiple systems including **Azure Synapse** and **SQL Server**, performing **data validation** and integration for financial modeling
- Presented complex findings through **visualizations** and **reports** to executive stakeholders, utilizing **Excel Advanced** features including **pivot tables** and **formulas** to communicate insights clearly and support **data-driven decisions**

Data Analyst, *San Jose State University, San Jose, CA*

May 2024 – Dec 2024

- Applied **data mining techniques** and **statistical methods** to analyze **300+ GB** of climate data, uncovering patterns that enabled **92% accurate** wildfire risk predictions
- Developed **predictive models** using **Python, SQL**, and **time-series forecasting** to identify trends and assess potential risks, supporting **strategic planning** for government agencies
- Created **visualizations** and **reports** to communicate complex analytical findings to stakeholders, enabling **data-driven decisions** on resource allocation and risk mitigation
- Monitored performance trends across multiple spatial resolutions, providing actionable insights through comprehensive data analysis and interpretation

Data Analyst, *Codage Habitation, India*

Jan 2022 – Nov 2022

- Created and updated **interactive dashboards** in **Tableau** and **Power BI** tracking **real-time business metrics**, helping stakeholders monitor **customer behavior** and engagement trends
- Provided **analytical support** for **cross-functional projects**, using **SQL** and **Python** to uncover patterns that increased **user engagement by 15%** and optimized marketing ROI
- Enhanced **data quality** by **25%** through **SQL-based ETL processes** and **Python automation**, managing large datasets across multiple systems and implementing **data validation frameworks** for **e-commerce analytics**
- Collaborated with stakeholders across multiple teams, presenting findings clearly and effectively to drive **data-driven decisions** and continuous improvement initiatives

PUBLICATIONS

Car resale value prediction system

2021

Authored research paper on car resale value prediction, published in IRJET

<https://www.irjet.net/archives/V8/i5/IRJET-V8I5490.pdf>
