SUMMARY

Experienced IBM Sterling OMS Developer with 5+ years of expertise in order fulfillment, sourcing, and scheduling rules, including work on Sterling Web SOM and Web COM, IBM Sterling Business Center, and IBM Sterling Application Management. Skilled in payment processing, inventory control, pricing, and classifications, driving efficiency and improving customer satisfaction. Strong background in Agile methodologies, collaborating with cross-functional teams to ensure successful project delivery.

EDUCATION

Master of Science in Management Information System, (CGPA – 4.0) August 2023 – May 2025
University of Illinois Chicago | Chicago, IL

Bachelor of Engineering (B. E) | Computer Science & Engineering, (CGPA – 3.62) August 2014 – May 2018
National Institute of Engineering | Mysuru, India

WORK EXPERIENCE

Senior Application Developer | INFOSYS, Bangalore August 2022 - August 2023

- Spearheaded **IBM Sterling OMS Development**, customizing **IBM Sterling Web SOM and Web COM** Management for order modifications, procurement visibility, Global inventory Visibility, Distributed Order management, Sourcing and Scheduling rules improving project efficiency by 60%.
- **Configured order selling and fulfilment types** such as **BOPIS, STH, STS, and DSV** in Sterling OMS, optimizing order lifecycles and **developed microservices** to **boost fulfilment efficiency by 25%**.
- Managed items in **IBM Sterling Business Center**, overseeing SKU catalogs, bundle-kit items, and classification hierarchies. Focused on **inventory management** by enhancing inventory visibility, on-hand stock, and safety factors, while implementing advanced pricing strategies that resulted in a 15% increase in customer satisfaction.
- **Directed product functionality flows** and implemented **WMS, OMS, and ERP systems**, optimizing order management, ETL processes, and real-time lifecycle updates with **RTAM, ATP Monitor rules**, and shipment tracking, boosting delivery and production support efficiency by 16%.
- **Managed payment processing** in IBM Sterling OMS, including **payment authorization, settlement, and invoicing** using systems like Klarna, PayPal, and TSC gift cards, ensuring safe-secure transactions.

Sterling Package Consultant | IBM, Bangalore March 2021 - July 2022

- **Enhanced Sterling Application Console UI** for **Purchase Order workflows**, enhancing vendor selection, order creation, and **quotation analysis and Quote approval** boosting efficiency by 38%.
- Created and generated **XMLs**, **XML Parsing, XSLTs** using **Java** for service updates and processing, and worked with **mashup files, JavaScript, and Node.js** for UI development and enhancements.
- Worked on **sourcing and scheduling rules** in IBM Sterling OMS, optimizing **order fulfillment cycles, lead time selection, and production location/channel selection** to ensure efficient shipping location, inventory management, and fulfillment processes.
- Worked extensively with **SQL** to retrieve order details, inventory information, and customer data, **created custom tables and hangoff tables**, and implemented database extensibility solutions
- Applied **Agile** and **Scrum** to streamline delivery and led a team of six, ensuring cross-functional collaboration with product owners.

Application Development Analyst | ACCENTURE, Bangalore June 2018 - February 2021

- Designed and Developed **Sales Order, B2C, B2B, Transfer Order, Backorder, Return, and Refurbished Orders, alongside Reverse Logistics**, using **KPIs** like route selection, lead time calculation, and alternate transfer routes, improving logistics performance by 25%.
- **Automated 60% of regression scenarios** with **TOSCA**, created test scripts, reducing defect turnaround by 25%, and conducted **UAT, Connected AT, application testing**, and root cause analysis.
- Customised **order pipelines, participant modelling, Org- roles, time-triggered transactions, API, agent servers, services, Order- Holds, events, alerts, and user exits** for order processing, improving scalability by 20%.
- Configured integration between IBM Sterling OMS, **TIBCO**, and external systems, managing statuses, conditions, and event handlers, while using **Git, Bitbucket, Bamboo** for deployment and sterling version control.

SKILLS & CERTIFICATIONS

Certifications: AWS academy Cloud Foundations, AWS academy Data Analytics & Data Engineering, Lean Six Sigma
Languages: Java, SQL, HTML, CSS, C, C++, JavaScript, Angular, UNIX, XML.

Database: MySQL, Snowflake, MS SQL Server, MS Access.

Tools & Software: IBM Sterling, Eclipse, JIRA, GIT, Bitbucket, Bamboo, Confluence, Cognos, Postman, JMeter, IBM WebSphere, TOSCA, Advanced Excel, Tortoise Git, MS Word, PowerPoint.

Soft Skills: Excellent verbal communication skills, Strong interpersonal skills, Advanced organizational skills, Strategic problem-solving and analytical thinking, Effective team player.
