Summary

Senior Business Intelligence Professional and Data Analyst with 6+ years of expertise in leveraging data analytics to fuel business growth and optimize performance within the E-commerce, Retail, and Telecom sectors. Proficient at translating raw data into strategic assets by identifying key performance indicators (KPIs), developing predictive models, and delivering compelling data narratives.

Professional Experience

Intermodal Shipping Services Co. W.L.L | US, Remote | Data Analyst Volunteer | 03/2025 - Present

- Built KPI dashboard to track on-time delivery, customs clearance time, transit delays, and freight cost per shipment for supply chain logistics, leading to a 15% reduction in logistics bottlenecks.
- Streamlined Inbound/Outbound warehousing processes, enhancing inventory accuracy by 10% and shortening order cycle times, improving operational efficiency.

PwC | Bangalore, India | Senior Associate, Data & Analytics | 10/2021 - 08/2024

Client Engagement: eBay, US (Global eCommerce Leader)

- Led 10+ A/B testing cycles & data analysis, boosting Average Transaction Value by 18% and sales conversion rates by 12% in one year.
- Revitalized email campaigns, increasing engagement by 25% & generating an estimated \$750K in quarterly incremental revenue.
- Developed Tableau eCommerce Sales Funnel Dashboard (MySQL), boosting conversion 8% & monthly revenue by \$500K.
- Analyzed 20+ underperforming product categories using Excel/Tableau; recommendations recovered \$3M in potential lost revenue.
- Engineered data integration pipelines from 5+ sources (Python), improving reporting accuracy by 25% & model efficacy by 10%.
- Used Python (Pandas, Seaborn) for sales analysis, identifying 5 new customer segments & 10 product correlations, increasing targeted customer acquisition by 15%.
- Created/Optimized 100+ SQL queries (45% faster performance) for data analysis, supporting executive decision-making.

Client Engagement: Dollar General, US (National Retail Corporation)

- Architected Tableau Retail Analytics dashboards for 200+ store locations, increasing sales revenue by 9% (approx. \$15M annually) & regional profit margins by 7%.
- Mastered advanced Tableau features (LODs, parameters), reducing dashboard development time by 20%.
- Launched Power BI HR Attrition Dashboard for 50,000+ employees, reducing annual attrition by 6% (saving est. \$2.5M).
- Deployed Python-based automated Excel reporting, cutting manual effort by 20 hrs/month (75% reduction) & improving accuracy by 25%.
- Built Tableau Inventory Dashboard, reducing stock outs by 12% & excess inventory costs by 10% (freeing up \$1.2M capital).

Tata Consultancy Services | Bangalore, India | BI Developer/Data Analyst | 12/2017 - 10/2021

Client Engagement: TataSky (Leading DTH Service Provider)

- Implemented & managed 40+ Tableau dashboards and administered Tableau Server for 300+ stakeholders, improving decision-making efficiency by 10% and data utilization by 50%.
- Engineered Customer Acquisition/Churn analysis and optimized Telecom field service analytics, resulting in 10-12% churn reduction, 8% subscriber engagement increase, 8% higher first-time fix rates, and a 7% CSAT score improvement.
- Designed 10+ SAP BO IDT Universes (improving query performance by 30%) and authored 175+ SAP BO WEBI/Excel reports with custom SQL, reducing ad-hoc reporting turnaround by 40% and enhancing data flexibility by 20%.
- Successfully migrated 500+ critical BO reports from On Prem to Amazon Redshift, enhancing accessibility by 100% and performance by 40% with first-pass migration success..
- Administered SAP BO CMC for 500+ users, managed 150+ user groups with strict RBAC, and implemented automated publishing for 100+ critical reports (99.95% reliability), ensuring 100% data security compliance.
- Used BIAR files & Promotion Management to migrate reports, Universes, users between Development, UAT, and Production environments.
- Communicated with business users, analysts, and stakeholders for requirement gathering to enhance universes and WebI reports, and conducted SAP BO/Tableau training sessions for over 200+ users, boosting data literacy by 60%.
- Utilized advanced Excel (Macros, VLOOKUP, PivotTables, Match and IF statements) for large datasets, cutting manual processing time by 50%.

Education & Certifications

- Bachelor of Engineering in Electronics and Telecommunication, Visvesvaraya Technological University - 09/2013- 05/2017
- Tableau Desktop Specialist

Skills

Data Analysis & Insights: SQL (MS SQL Server, MySQL, Amazon Redshift, Netezza, Teradata, Hive), Python (Pandas, NumPy, SciPy, Matplotlib, Seaborn), Microsoft Excel, Google Sheets

Techniques Used: Exploratory Data Analysis (EDA), Statistical Testing, Predictive Modeling, A/B Testing, Regression Testing, Data Visualization.

Visualization & BI: Tableau (Desktop, Server, Prep), Power BI, SAP Analytics Cloud & Business Objects.

Big Data & Cloud: Hadoop, Apache Spark (PySpark), Google Cloud Platform.

Development & Collaboration: Jupyter Notebook/Google Colab, Git/GitHub, Jira.

AI & Generative Tools: ChatGPT, Claude, Gemini (used for research, automation, content generation, and data interpretation)
