

SAI AKSHAY THOTA

Power BI Developer / Data Analyst | [LinkedIn](#)

Email: akshaythota05@gmail.com | Mobile: (513) 510-9827

Professional Summary

- Skilled Power BI Developer / Data Analyst with proven experience delivering BI and analytics solutions in both financial services and healthcare domains.
- Hands-on expertise in Power BI, SQL, DAX, and Power Query (M) for building interactive dashboards, scalable data models, and self-service reporting solutions.
- Strong SQL background with ability to write, optimize, and validate queries for extracting and transforming large, complex datasets.
- Proficient in Power BI report and dashboard development, including DAX measures, calculated columns, drill-through reports, KPI scorecards, and data models.
- Experienced in Power Query (M) for ETL processes - data cleaning, merging, and transformation from multiple sources (databases, Excel, APIs, cloud services).
- Adept at designing dataflows and reusable ETL pipelines within Power BI Service to improve efficiency and scalability of enterprise reporting.
- Experienced in implementing Row-Level Security (RLS) and role-based access for secure data governance.
- Skilled in Agile/Scrum environments, working closely with cross-functional teams (business users, data engineers, compliance officers, and executives).
- Recognized for bridging the gap between business and technology, delivering BI solutions that are technically sound, secure, and aligned with organizational strategy.

Technical Skills

Category	Skills / Tools
Business Intelligence	Power BI (Reports, Dashboards, Paginated Reports, Dataflows), DAX, KPI Design, Drill-through Reporting
Databases & ETL	SQL Server, Oracle, Azure SQL, SSIS, Stored Procedures, Views, Joins, Dataflows
Data Preparation	Power Query (M), ETL Pipelines, Data Cleansing, Data Transformation
Programming & Analytics	SQL, DAX, M Language, Python (Pandas, NumPy, Scikit-learn for analytics)
Data Governance & Security	Row-Level Security (RLS), Role-Based Access (RBAC), HIPAA, GDPR, SOX Compliance
Methodologies & Tools	Agile/Scrum, JIRA, Confluence, Git, DevOps, MS Teams
Other Tools	Microsoft Excel (Power Pivot, Advanced PivotTables), Tableau (basic), Visio, MS Access

Experience

CommuniCare Health Services – Cincinnati, OH | June 2024 – Present

Data Analyst / Power BI Developer

Supported the corporate analytics team by building Power BI dashboards and SQL-based reports to provide insights into patient care operations, staffing efficiency, financial performance, and compliance metrics across multiple long-term care facilities.

- Developed and deployed Power BI dashboards to track patient admissions, readmission rates, occupancy trends, and length of stay.
- Designed financial performance dashboards monitoring revenue, cost per patient, and billing cycle times.
- Created data models and DAX measures to calculate KPIs such as staffing-to-patient ratios, medication compliance, and regulatory audit scores.
- Wrote and optimized SQL queries against SQL Server databases to extract and validate patient, HR, and financial datasets.
- Built Power BI dataflows to automate and standardize transformation logic across recurring reports.
- Applied Row-Level Security (RLS) to ensure secure access for facility managers, compliance teams, and executives.
- Automated data refresh schedules and reporting pipelines in Power BI Service, reducing manual report preparation time.
- Collaborated with the compliance team to design dashboards aligned with CMS quality measures and HIPAA guidelines.
- Conducted data validation and reconciliation exercises to ensure accuracy in regulatory reporting.
- Led end-user training sessions for facility managers and business users to enable adoption of self-service BI.

Environment: Power BI (Desktop & Service), SQL Server, Azure SQL, DAX, Power Query (M), Excel, SharePoint Online, Microsoft Teams, Agile/Scrum.

Moody's Analytics – Bengaluru, India | Sep 2021 – Dec 2022

Power BI Developer

Worked as part of Moody's Risk and Finance Analytics team, responsible for developing Power BI dashboards and SQL-based reports to track credit risk, financial exposure, and regulatory compliance metrics. Supported global stakeholders by transforming raw financial datasets into interactive insights for decision-making.

- Designed and deployed Power BI dashboards for credit risk analysis, loan performance, and exposure monitoring.
- Created data models and advanced DAX measures to calculate KPIs such as probability of default (PD), loss given default (LGD), and exposure at default (EAD).
- Extracted and prepared datasets using SQL queries from Oracle and SQL Server databases.
- Built Power BI dataflows to standardize data transformation logic across multiple reports.
- Implemented Row-Level Security (RLS) to enforce role-based access for risk managers, analysts, and compliance teams.
- Automated report refresh schedules and distribution in Power BI Service to provide near real-time analytics.
- Collaborated with finance and compliance teams to translate regulatory requirements into BI solutions.
- Conducted query optimization and dashboard tuning to handle large volumes of financial data.
- Created drill-through dashboards and what-if analysis reports for stress testing and scenario modeling.

- Documented SQL scripts, data models, and dashboard workflows for governance and audit purposes.

Environment: Power BI (Desktop & Service), DAX, Power Query (M), SQL Server, Oracle, Azure SQL, Excel, SharePoint Online, Microsoft Teams, Agile/Scrum.

Cognizant Technology Solutions - Hyderabad, India | Mar 2021 – Sep 2021

Programmer Analyst Trainee

- Trained in Java and Selenium, gaining hands-on experience with Selenium for test automation.
- Contributed to the UPS QE&A project by implementing test automation using Selenium, improving the overall testing process.
- Utilized tools like Jira for issue tracking and Postman for API testing to ensure robust test coverage.
- Assisted in reviewing documentation and test flows, reducing errors by 15%.

CERTIFICATIONS

- AWS Certified Solutions Architect – [Verification Link](#)
- AWS Certified Cloud Practitioner – [Verification Link](#)

EDUCATION

University of Cincinnati - Cincinnati, OH

Master of Science in Information Technology
