Summary

Software Engineer with strong expertise in Java, Python, and C++, and a solid foundation in data structures, algorithms, and object-oriented programming (OOP). Skilled in building distributed systems, RESTful APIs, and microservices with Spring Boot and ReactJS. Experienced in deploying applications on Google Cloud Platform (GCP), AWS, Kubernetes, and Docker, and automating workflows through CI/CD pipelines. Proficient in SQL/NoSQL databases, debugging, and testing frameworks, with a proven ability to deliver reliable, cloud-native, and production-ready solutions.

Technical Skills

- **Languages:** Java 11/17, Python, C++, JavaScript, TypeScript, Bash
- **Frameworks & Libraries:** Spring Boot, Spring MVC, Hibernate, ReactJS, REST APIs, GraphQL, NumPy, Scikit-Learn
- **Databases:** PostgreSQL, MySQL, Teradata, SQL Server
- **Cloud & DevOps:** GCP, AWS (ECS, EC2, S3, IAM, CloudWatch), Docker, Kubernetes, OpenShift, Jenkins, GitHub Actions, Terraform (basic)
- **Testing & Monitoring:** JUnit, Mockito, PyTest, Cucumber, CloudWatch, JMeter, Swagger, Postman
- **Messaging & Streaming:** Apache Kafka, GraphQL (Apollo)
- **Tools:** IntelliJ, Eclipse, VSCode, Jira, Confluence, Figma

Experience

Associate Software Engineer, Exelon, Washington DC (Remote)

Apr 2024 – Present

Project: BAD Apps – Bidding Automation Delivered

- Developed REST APIs and backend microservices using Java 17 and Spring Boot to automate vendor bidding workflows.
- Implemented scoring and notification services, enabling standardized bid submissions and faster decision-making.
- Engineered SQL queries in PostgreSQL and Teradata to validate bids, optimize performance, and improve reporting.
- Deployed containerized applications with Docker on AWS EC2, ensuring scalability and system resilience.
- Integrated JWT-based authentication to provide secure, role-based access for vendors and internal staff.
- Collaborated with data teams to integrate Power BI dashboards, enabling real-time insights on cost, vendor history, and timelines.
- Participated in Agile ceremonies, contributing to sprint planning, standups, demos, retrospectives, and UAT cycles.
- Enhanced procurement by reducing manual errors, streamlining audit readiness, and accelerating RFP processing cycles.

Software Engineer Intern, IBM, Hyderabad, India

May 2022 – Jul 2023

- Designed and maintained Spring Boot services with Java 11, supporting compliance and reporting modules.
- Optimized SQL and Teradata scripts, improving data processing speed and system stability.
- Built ReactJS dashboards with charts, filters, and drilldowns, delivering actionable insights for internal stakeholders.
- Secured backend services with JWT authentication and granular role-based access.
- Automated deployments with CI/CD pipelines using Jenkins and GitHub Actions.
- Resolved frontend and backend issues across 100+ tickets, ensuring consistent SLA adherence.
- Authored API specifications, usage guides, and onboarding documents, reducing knowledge transfer time.
- Partnered with QA, business users, and senior engineers in Agile sprints, ensuring timely delivery of features.

Projects

Plant E-commerce Website

Built a full-stack e-commerce platform with ReactJS and Spring Boot, supporting browsing, cart, and checkout workflows. Integrated secure authentication services and enabled modular deployment with CI/CD pipelines.

Research Project Portal – Gatsby/React

Created a scalable portal with GatsbyJS, React, GraphQL, and Sanity CMS to manage dynamic research data. Enhanced site performance with plugins and automated deployment pipelines.

SmartRetailFace – AI-Powered Facial Recognition

Designed a recognition system using OpenCV + LBPH, optimized with Genetic AI for improved accuracy. Integrated GUI,

SQL-backed storage, and real-time notifications for retail scenarios.

SalarySense – ML Salary Prediction

Built predictive models with XGBoost, Random Forest, and Linear Regression on workforce datasets. Applied SHAP and Fairlearn to ensure transparency and fairness in predictions.

Education

Master of Science in Information Technology University of Cincinnati, Cincinnati, OH	Dec 2024
Bachelor of Technology in Electronics & Communication Engineering Gokaraju Rangaraju Institute of Engineering and Technology, Hyderabad, India	Jun 2023
