

EXECUTIVE SUMMARY

Software developer with strong soft skills and educational experience

I am currently seeking a new position with a proactive team that values good work ethic and a desire to share knowledge. I am a good team worker and have good communication skills. I am prepared to learn new technologies and frameworks, and I am willing to dedicate a substantial amount of time to learning outside of work. I also have a pet project where I work with navigation and statistics.

PROJECT EXPERIENCE

- Optical recognition of test blanks on C# without libraries
- Simple photo editor
- Collecting real-time data from sensors (temperature, accelerometer, gyro, distance) using Atmel microcontrollers via Serial port by self-written software
- Simple software for adaptive cruise control
- API with database for wallet app (test task)
- Microservices for collecting data and building optimal routes for cars
- Diagram-to-code converter with interactive UI
- Slack bot for controlling service balance
- Subscriptions API for Jooble users
- Other simple algorithmic apps like matrix calculator, computing real-time data, collecting statistics etc.

PROFESSIONAL EXPERIENCE

.NET SOFTWARE DEVELOPER (REMOTE)

Jooble, Kyiv, Ukraine

February 2022 – August 2023

- *Remote .NET backend software development, using .NET Stack (C#, Entity Framework, ASP.NET Core, MVC).*
- *Skilled in MySQL for database management and REST/SOAP web services integration.*
- *Employed DevOps practices (UNIX/Linux, Docker) for efficient deployment.*
- *Worked with CI/CD (Jenkins).*
- *Ensured code quality using version control (GitHub, GitLab).*
- *Developed simple UI pages for creating cross-team apps and testing functionality using JavaScript, HTML, CSS.*
- *Collaborated in Agile environment (JIRA) for project management.*
- *Wrote documentation for implemented functionality (Atlassian)*
- *Utilized Visual Studio 2022 as the primary IDE for coding and debugging.*

.NET DEVELOPER (REMOTE)

Freelance, Kyiv, Ukraine

September 2020 – February 2022

- *Created software for other students from several universities using WPF, Winforms, WEB API.*

EDUCATION AND CREDENTIALS

BACHELOR OF SOFTWARE ENGINEERING, 2023 (COMPLETED)

Taras Shevchenko National University of Kyiv, Kyiv, Ukraine

ADDITIONAL EDUCATION (COURSES)

[*Algorithmic Toolbox, 2020, UC San Diego*](#)

[*AWS Cloud Technical Essentials, 2022, AWS*](#)

[*Agile Software Development, 2020, University of Minnesota*](#)

[*Object-Oriented Design, 2020, University of Alberta*](#)

[*Introduction to Data Science in Python, 2022, University of Michigan*](#)

[*Functional Programming Principles in Scala, 2022, EPFL*](#)

[*Requirements Engineering: Secure Software Specifications, 2021, University of Colorado*](#)

INDUSTRY & TECHNICAL SKILLS

Technical Languages

- C#, .NET
- T-SQL
- LINQ
- HTML, CSS
- JavaScript, Node.js

Databases

- MS SQL Server
- PostgreSQL
- MySQL

Others

- Analysis of algorithms
- Patterns
- SOLID (object-oriented design principles)
- HTTP requests
- GIT
- Cloud Fundamentals (Microsoft Azure, AWS)
- Atlassian (Jira, Confluence)
- Elastic search

OTHER ACTIVITY

I wrote a scientific work about computing data from an accelerometer and gyroscope (it hasn't been published). Also, I was a winner of the regional physics Olympiad and local math Olympiad in high school.

ADDITIONAL INFORMATION

Languages:

- English - Upper-intermediate (B2)
- German – Beginner (A1)
- Ukrainian – Native speaker (C2)
- Russian – Native speaker (C2)

Interests: Physics and math, engineering, cars
