Professional Experience

Kultera Inc

New York, NY

Business Analyst

January 2020 to February 2025

- Oversaw development of 7 telecom applications, collaborating with clients and the development team to address business needs
- Met with teams of 3-7 stakeholders per application twice a month to gather requirements
- Created Epics and Features via Azure DevOps to capture user requirements
- Created UI mockups with Balsamiq in order to visually demonstrate user requirements and ideas on how to implement them
- Tested through applications as development work finished, logging bugs and making revisions as needed in order to move an application release through the production pipeline
- Communicated with users via Zendesk, helping them troubleshoot application issues and noting additional requests
- Compiled release notes to be sent to over 100 users at the end of a sprint

LaGuardia Community College

Long Island City, NY

Software Guild - Java Apprenticeship

September 2018 to June 2019

- Underwent a 9 month course to learn full-stack web development
- Learned about Agile software development, specifically the Scrum implementation
- Completed projects to demonstrate mastery of the tech stack (HTML/CSS/Java/MySQL)

Barnes & Noble College, Columbia University Bookstore

New York, NY

Department Manager

August 2016 to June 2018

- Prepared weekly work schedules for a staff of 7-9 booksellers and delegated duties such as shelving, returns and fixture organization to staff for the day
- Interviewed, hired, and trained department staff on various job-related tasks listed above as part of the on-boarding process
- Coordinated book sales for more than 50 author events across campus and in-store by providing stock and a staff member to the event
- Created daily orders for store stock and special events via the BookMaster software
- Wrote weekly sales reports, submitting them to the regional manager and VP

Supervisor

October 2015 to August 2016

- Provided service by assisting customers, responding to their inquiries
- Delegated and monitored tasks assigned by the store manager to staff members
- Utilized BookMaster to look up and order books for customers if a book was out of stock

Education

Hunter College

New York City, NY

Bachelor of Arts in Computer Science

Graduated 2014
