Summary

Data Analytics graduate with hands-on experience in statistical modeling and predictive analysis using Python, R, and SQL. Proven ability to translate complex datasets into clear, actionable insights, with a focus on solving business problems like customer churn and trend analysis. Seeking to apply analytical skills to a Product Analyst role.

Technical Skills

- Programming Languages: Python, R, SQL, Java
 - Data Visualization & BI Tools: Tableau, Matplotlib, Seaborn, RStudio
 - Machine Learning: Scikit-learn (Logistic Regression, Random Forests, Hyperparameter Tuning, Gradient Boosting)
 - Data Manipulation & Analysis: Pandas (Python), Dplyr (R)
 - Development Environments: Jupyter Notebooks, RStudio, VSCode
 - Version Control: Git
 - Microsoft Office Suite: Excel, Word, PowerPoint
-

Relevant Experience

Data Analytics Projects | Western Governors University | 2023 – 2025

- **Global Economics and Life Expectancy Analysis:** Utilized R to analyze World Bank Development Indicators (WDI) data, performing comprehensive cleaning,

correlation analysis, and visualization. Identified clear trends between countries' GDP and life expectancy, highlighting critical periods for further investigation.

- **Telecommunications Customer Churn Analysis Prediction:** Developed a predictive model in Python using Jupyter Notebooks, Matplotlib, Seaborn, and Scikit-Learn. Identified customer tenure as the primary driver of churn, leading to actionable recommendations for new customer retention strategies

- **Traffic Accident Analysis:** Investigated the relationship between weather conditions and traffic accidents in NYC using Python, Pandas, Matplotlib, and Seaborn. Integrated motor vehicle collision data with historical weather API data to analyze trends. Discovered that the majority of accidents occurred during clear weather, with a higher severity, challenging the initial assumption that snowy conditions were the primary cause of accidents.

Education & Certifications

Western Governors University | Salt Lake City, UT Bachelor's Degree, Data Analytics |

Graduation Date: June 2025

- Completed 32 credits in final semester, demonstrating accelerated learning and high efficiency.

Certifications:

- CompTIA Data+ Certification | December 2024
- CompTIA Project+ Certification | April 2023
- AWS Certified Cloud Practitioner | September 2023

Work Experience

Cashier | PenMart | Wyalusing, PA January 2024 – September 2024

- Provided exceptional customer service to a high volume of patrons, skillfully

resolving inquiries, managing returns, and addressing various customer concerns.

- Processed diverse transactions including cash, credit/debit, and coupons with high

accuracy, consistently balancing till within cents of target at shift end.

- Maintained transaction efficiency during peak periods while ensuring meticulous age verification for restricted products.

- Identified opportunities to increase sales by proactively informing customers of promotions and potential savings.

- Demonstrated adaptability and problem-solving by responding to unexpected issues, such as fuel spills, to maintain a safe and clean environment.

Produce Stocker | Maines | Binghamton, NY May 2019 – August 2019

- Conducted daily quality inspections of produce displays, ensuring optimal freshness and appearance for customer satisfaction.

- Implemented strict sanitation and quality control protocols to prevent cross-contamination and maintain product integrity, addressing potential allergy concerns.

- Managed inventory by proactively assessing stock levels on the sales floor and organizing back-stock for efficient replenishment.

- Maintained meticulous product presentation by ensuring all items were front-faced and neatly displayed to enhance customer appeal and navigability.

- Demonstrated agility and problem-solving by efficiently coordinating product flow between the sales floor and preparation areas during peak demand.

- Provided direct customer support, offering recommendations and identifying suitable alternatives for out-of-stock items, while assisting with selection of desired produce.
