SUMMARY

Analytical and solutions-focused MIS graduate with hands-on experience as an **IT Business Analyst** delivering business and technical solutions through **stakeholder collaboration**, Agile project delivery, and full-stack development. Proven ability to bridge the gap between business needs and technical implementation using tools like **React Native**, **MySQL**, and **Jira**. Adept at **gathering requirements**, driving process improvements, and creating scalable applications that improve user experience and operational efficiency.

EDUCATION

Bachelor of Science, Major: Management Information Systems

The University of Alabama — Tuscaloosa, AL

Honors: Dean's List

Graduation: Dec 2024 | GPA: 3.25 | Major GPA: 3.35

TECHNICAL SKILLS

- **Business Analysis:** Requirements Gathering, Process Mapping, Agile/Scrum, User Stories, Stakeholder Management
- **Tools & Platforms:** Jira, Visual Studio Code, Microsoft Excel, AWS, Cisco Packet Tracer
- **Programming & Development:** React Native, C#, C++, Python, JavaScript, HTML/CSS, .NET
- **Databases:** MySQL (Schema Design, Query Optimization)
- **Relevant Coursework:** Systems Analysis & Design, Database Administration, Business Programming, Network & Security

EXPERIENCE

IT Business Analyst / App Developer

Aug 2024 – Dec 2024

Solar Chauffeur – Capstone Project, University of Alabama — Tuscaloosa, AL

Selected to develop a full-stack mobile application leveraging Amazon AWS for a leading Microtransit provider for colleges and universities — streamlining operations by centralizing and automating scheduling, enhancing driver and customer visibility, optimizing carpooling and routing functionality to maximize ridesharing efficiency, while providing a scalable solution.

- **Gathered** and documented business **requirements** through stakeholder interviews and **workflow analysis**.
- Delivered a cross-platform mobile app using **React Native**, enhancing ride scheduling and driver efficiency.
- Designed and implemented **MySQL** database schema to support real-time schedule tracking and reporting.
- **Created user stories**, led sprint planning, and coordinated stakeholder demos in **Agile** development environment.
- **Collaborated** with cross-functional **teams** to ensure accurate technical execution of business requirements.
- Developed intuitive UI components for scheduling, notifications, and user profiles to improve user experience.

Business Analyst / Web Developer

Aug 2023 – Dec 2023

University of Alabama MIS Program – Tuscaloosa, AL

Partnered with sports organization to analyze operational challenges and deliver a custom web solution.

- Conducted **requirement-gathering** sessions and presented bi-weekly demos to stakeholders.
- Developed and deployed a full-stack application using **JavaScript**, **C#**, **HTML**, and **MySQL**.
- Designed database architecture and integrated **secure data** handling practices.
- **Led** system **testing** and **debugging**, ensuring a stable, high-quality product.
