WORK EXPERIENCE

United States Department of Agriculture

October 2022 – April 2025

Survey Statistician/Agricultural Analyst

Camas, WA (Remote)

- Monitored and analyzed large-scale data pipelines, identifying anomalies and resolving technical issues to maintain operational continuity.
- Created technical documentation and onboarding guides, enhancing knowledge sharing and reducing onboarding time.
- Designed and executed survey programs using advanced statistical methods (R, SQL, SAS) to analyze quantitative data, delivering actionable insights that informed stakeholder strategies across diverse populations.
- Built Power BI dashboards that connected to SharePoint, leveraging Power Automate flows to extract and consolidate planning data from Microsoft Teams.
- Trained and onboarded new team members, introducing best practices for secure data handling and Office 365 collaboration tools.

Fisher Investments

May 2021 – June 2022

International Sales Support Intern

Camas, WA

- Acted as the first point of contact for internal technical and system support issues across departments.
- Managed ad-hoc technical requests, resolving incidents promptly and documenting solutions for future use.
- Assisted in building internal reporting dashboards and performance monitoring tools using Microsoft 365 applications.

United States Air Force

April 2013 – February 2019

Logistics Analyst

Fairfield, CA

- Analyzed cost and logistics data to optimize procurement cycles and reduce operational inefficiencies.
- Oversaw data center operations while briefing leadership monthly on phishing incidents and fraud alerts to drive informed decision-making.
- Created an automated SQL process that tracked aircraft arrivals and departures, providing a dashboard for visualizing upcoming operational demands.
- Analyzed technical and operational data to optimize workflows under strict compliance standards.
- Provided incident response support in high-pressure environments, maintaining mission-critical systems.

EDUCATION

Portland State University

June 2022

Bachelor of Science (B.S.) in Quantitative Economics, Minor Mathematics

Portland, OR
