Summary

Certified Data Analyst with experience in Python, SQL, R, Tableau, and Excel (including VBA). Experienced professional with a history of achieving collaborative goals and working with internal and external stakeholders. Skilled with Microsoft Office and the Google Suite, experience with ETL, data analysis, machine learning, data visualization, problem-solving, and collaboration. Strong professional with a bachelor of science and some graduate-level quantitative research training at The Ohio State University. Interested in a role utilizing my coding, analytical, and data visualization skills.
