Address: 33 Cottage Street, Bar Harbor, Maine, United States of America

Summary

ML Engineer & Data Scientist with hands-on Azure ML pipelines, forecasting, LLM/RAG apps & MLOps. Delivered projects in retail optimization, healthcare AI, and 3D medical imaging. Former Continental contributor with Agile/Scrum experience. B.Sc. Mechatronics and Robotics in progress.

Skills

ML/AI: Python, pandas, NumPy, XGBoost, AutoML, Forecasting, Regression, Classification

Cloud/MLOps: Azure ML (pipelines, endpoints, monitoring), MLflow, Prompt Flow, RAG

Tools: Docker, Git, Streamlit, Linux (Debian, Ubuntu, Arch), Jira, Confluence

Projects

- **RetailCortex – AI Retail Engine**
Unified sales/logistics/HR data; built ML models (XGBoost, MLflow) with +20% lower RMSE vs. baseline. Deployed via Azure ML + Streamlit dashboard.
- **SalesForecastingEngine – Azure ML Pipeline**
Built full ML pipeline (prep → deploy) using MLflow, Azure ML. Achieved MAE $\approx$ 13.4, RMSE $\approx$ 18.2, +43% vs. baseline.
- **Medical AI Assistant – Prompt Flow + RAG**
LLM assistant for clinical guidelines using Prompt Flow + RAG. Reduced hallucinations, delivered answers via Streamlit.
- **RSNA Aneurysm Detection (Kaggle) – in progress**
3D anomaly detection on NIfTI medical volumes using ensemble learning for aneurysm classification.

Experience

Continental Automotive Romania – Support Programmer

05/2024 – 06/2025

- Resolved blockers in Jira/Confluence systems across Agile teams
- Managed access, improved delivery continuity, enabled onboarding
- Built internal docs + delivered tooling training sessions

Education

B. Sc. Mechatronics and Robotics (in progress) - Polytechnic University of Timisoara, Romania

High School Diploma - Mathematics, Physics, Chemistry and Biology – Ana Aslan Timisoara

- Achieved 10/10 in Mathematics on Romanian National Baccalaureate (100% score)

Azure Data Scientist Associate (DP-100) – Expected 11/2025
