SUMMARY

Supply chain and data analytics professional with 6+ years of experience leveraging advanced Excel, ERP systems, and visualization tools to streamline procurement and resource planning. Skilled in supplier management, data-driven decision-making, and compliance within regulated industries. Proven ability to manage complex projects, optimize material flow, and deliver measurable improvements in cost, efficiency, and reporting accuracy.

PROFESSIONAL EXPERIENCE

Financial Aid Advisor

Post University, Waterbury, CT | 2024 – present

- Advise and guide a caseload of 200+ students on federal, state, and institutional aid programs, ensuring compliance with Title IV, FERPA, and federal regulations.
- Analyze student financial data to determine eligibility, optimize aid packages, and ensure accuracy of disbursements.
- Utilize ERP systems (PeopleSoft) to process awards, monitor financial records, and generate reports for leadership review.
- Maintain meticulous records supporting error-free audits and compliance reviews.

Data Analyst

Alabama State University, Montgomery, AL | 2023 – 2024

- Developed advanced Excel reports (pivot tables, v-lookups, queries) to track KPIs across departments, reducing reporting time by 40%.
- Created 150+ SQL reports to audit \$24.7M in federal funding, ensuring compliance with government regulations.
- Built data visualizations and dashboards to monitor enrollment and retention metrics, improving decision-making for leadership.
- Collaborated with cross-functional teams to streamline resource allocation, optimizing budgets and material usage.

ALEXIS ALLEN

Patrol Officer

City of Montgomery, Montgomery, AL | 2020-2023

- Applied data analysis to identify crime trends, improving patrol efficiency by 15%.
- Coordinated with community stakeholders.
- Patrolled assigned districts to maintain public safety, reduce crime rates, and respond to emergency incidents; contributed to a 12% reduction in overall crime within jurisdiction.
- Trained and mentored new recruits on law enforcement procedures, reporting protocols, and tactical planning, boosting team readiness and accountability.

Cyber Security Specialist

Alabama Attorney General, Montgomery, AL | 2019 – 2020

- Conducted compliance audits and vulnerability assessments, strengthening adherence to federal regulations (FAR/DFARS equivalent).
- Collaborated across departments to establish secure processes, improving operational integrity.
- Produced risk assessment reports and presented findings to leadership, providing actionable recommendations that informed policy updates.
- Led a phishing awareness campaign that decreased successful attacks and strengthened organizational cyber hygiene.

Data Analyst (GIS)

Troy University, Montgomery, AL | 2017-2019

- Used GIS and analytics tools to manage statewide resource allocation for agriculture projects.
- Produced dashboards and reports that informed decision-making and optimized material distribution.
- Partnered with external agencies and stakeholders to align project goals, facilitating smoother communication and resource distribution.
- Collaborated with a remote cross-functional team to integrate GIS data with state-level databases, increasing accuracy and accessibility of critical information.
