PROFESSIONAL SUMMARY

Results-driven Information Technology professional with expertise in AWS, SQL, Python, and data visualization. Proven ability to translate business requirements into technical solutions and automate data-driven reporting. Adept at optimizing data pipelines, ensuring data accuracy, and developing interactive dashboards that enhance decision-making. Collaborative team player experienced in agile environments, process improvement, and cloud-based analytics.

CORE SKILLS

Cloud Platforms: AWS (EC2, S3, IAM, VPC, CloudWatch, Redshift), Snowflake
Data Analytics & Visualization: SQL, Python (Pandas, NumPy), Tableau, Power BI
Programming & Scripting: Python, Bash, Shell Scripting,
ETL & Data Modeling: Data Cleaning, Transformation, Pipeline Automation, Schema Design
DevOps & Tools: Jenkins, Git, Docker, Terraform, Maven, Apache Tomcat, Entire Microsoft Applications
Project Management: Agile (Jira), Requirements Gathering, Workflow Documentation

EDUCATION

Worcester Polytechnic Institute (WPI), Worcester, MA
Master of Science in Information Technology

MIT World Peace University (MIT WPU), Pune, India
Bachelor of Technology in Electrical Engineering

PROFESSIONAL EXPERIENCE

System Analyst | ALStream Tech Inc, New Brunswick, NJ | Aug 2025 – Present

- Collaborate with stakeholders to gather, document, and analyze business requirements for system enhancements.
- Develop SQL queries and Python scripts to automate reporting and data validation across AWS-hosted applications.
- Build and maintain Tableau and QuickSight dashboards to visualize KPIs and track operational efficiency.
- Translate business needs into technical specifications and workflow documentation for cross-functional teams.
- Optimize data integration processes for improved accuracy, scalability, and decision-making visibility.

Data Analyst | FrontRow (India) Pvt. Ltd., India | June 2022 – June 2023

- Designed and maintained SQL-based pipelines for data extraction and transformation.
- Built interactive dashboards in Tableau and QuickSight for product and marketing performance monitoring.
- Conducted data validation and mining on large datasets to identify behavioral patterns and insights.
- Collaborated with cross-functional teams to translate insights into actionable business recommendations.
- Reduced manual reporting time by 30% through Python automation and streamlined workflows.

Graduate Assistant | Worcester Polytechnic Institute (WPI), Worcester, MA | Sept 2023 – May 2024

- Supported IT and data analytics research projects involving automation and system monitoring.
- Developed Python scripts for ETL processes and data-driven insights.
- Created process flow diagrams and dashboards for infrastructure documentation and reporting.
- Mentored students on SQL, data analytics, and Python scripting.

Technical Engineer Intern | Cyanopharma Pvt. Ltd., Indore, India | Jan 2022 – May 2022

- Designed SQL databases and performance tracking systems to monitor manufacturing efficiency.
- Implemented Python scripts to automate maintenance schedules, reducing downtime by 20%.
- Assisted in deploying lightweight monitoring solutions and optimizing reporting workflows.

PROJECTS

AWS EC2 Web Deployment (Linux + Apache + Jenkins + Tomcat)

- Provisioned and configured AWS EC2 instances for scalable web application hosting.
- Automated deployment pipelines using Jenkins for CI/CD and integrated CloudWatch monitoring.
- Applied IAM security policies and SSL configurations to ensure compliance and performance reliability.

Business Intelligence Project for Target Corporation | WPI

- Designed Tableau dashboards for sales and inventory analytics using SQL and Python for data transformation.
- Developed predictive models for customer segmentation and store performance optimization.
- Automated ETL workflows for real-time reporting and visual insights.

Google Play Store Apps Analysis | WPI

- Conducted data cleaning, transformation, and clustering analysis using Python and SQL.
- Built Tableau and QuickSight dashboards to highlight performance trends and engagement metrics.
