SUMMARY

Business Analyst with around 5 years of hands-on experience leveraging SDLC, Agile, and Waterfall methodologies to align business and financial strategies, driving operational excellence and informed decision-making. Well-versed in drafting comprehensive documentation, including FRD, BRD, SRS, user stories, personas, and solution scenarios, ensuring clear communication of business requirements and technical solutions. Proven ability to perform cost/benefit, impact, GAP, risk, and SWOT analyses to evaluate project feasibility and operational risks. Adept at utilizing Tableau, Power BI, and Excel for visualization and reporting, providing stakeholders with intuitive dashboards and performance insights. Hands-on experience with cloud platforms like AWS, Azure, GCP, and DataBricks to enable scalable and efficient data solutions.

SKILLS

Methodologies: SDLC, Agile, Waterfall

Documentation: FRD, BRD, SRS, User Stories

Languages: Python, SQL

Project Management Tools: MS Project, MS SharePoint

Visualization Tools: Tableau, Power BI

Cloud Technologies: AWS, Azure, GCP

Analysis Skills: Cost/Benefit Analysis, Impact Analysis,

GAP Analysis, Risk Analysis, SWOT Analysis

Tracking/Other Skills: Jira, Microsoft Visio, JAD, RTM, UAT, Confluence, Figma, HP Quality Center

Soft Skills: Time Management, Leadership, Problem-Solving, Negotiation, Decision-Making, Documentation and Presentation, Verbal Communication

Operating Systems: Windows, Linux, Mac

EXPERIENCE

Tungsten Automation

Sep 2024 - Present

Business Analyst

Irvine, CA

- Directed end-to-end SDLC implementations using Agile methodologies, successfully delivering 15+ complex business projects on schedule, improving overall project efficiency by 25%.
- Cooperated with stakeholders to gather, refine, and validate business requirements, producing over 20 comprehensive BRD, FRD, and SRS documents that increased project clarity and reduced rework by 30%.
- Conducted in-depth GAP analyses and risk assessments, presenting actionable insights that led to a 20% reduction in project risks and optimized strategic decision-making for C-level executives.
- Intended and deployed interactive dashboards and comprehensive reports in Tableau, enabling real-time KPI monitoring and data-driven decision-making.

Sigma Infosolution LTD

Sep 2020 - Jul 2021

Business Analyst

India

- Led end-to-end business analysis processes using Agile methodologies, gathering requirements and documenting functional specifications (FRD, BRD) for cross-functional teams to ensure project alignment and timely delivery.
- Facilitated effective solution design by creating detailed personas, solution scenarios, and conducting GAP analysis to identify areas for process improvement, increasing efficiency by 25% across multiple projects.
- Performed complete cost/benefit analysis to evaluate project feasibility and support ROI-driven decisions, improving resource allocation and budgeting accuracy.
- Developed interactive dashboards and visual reports using Tableau, providing key business insights and contributing to data-driven decision-making for senior leadership.
- Applied DataBricks for data processing and integration, optimizing data workflows and enhancing data accessibility, resulting in a 20% reduction in reporting turnaround time.
- Abstracted MS SharePoint for document management and collaboration, improving team productivity and ensuring version control for project deliverables.

Zentek InfoSof

Jan 2017 - Mar 2020

Business Analyst

India

- Controlled business analysis efforts using Waterfall methodology, developing complete Software Requirement Specifications (SRS) and User Stories to ensure clear and actionable project requirements for cross-functional teams.
- Employed Power BI to design interactive reports and dashboards, enabling stakeholders to access real-time data insights and drive informed decision-making.
- Led risk analysis and SWOT analysis to identify potential project challenges and develop mitigation strategies, contributing to a 15% decrease in project risks.
- Collaborated with stakeholders and development teams through JAD sessions to define project scope and resolve complex business challenges, achieving a 98% stakeholder satisfaction rate.
- Oversaw User Acceptance Testing, collaborating with stakeholders to validate business requirements and ensure the final product met end-user needs, achieving a 98% UAT success rate.
- Controlled quality assurance initiatives using HP Quality Center, ensuring that all deliverables met the highest standards of quality and compliance with project specifications.

EDUCATION

Master of Science in Data Analytics

2024

Alliant International University, San Diego, CA

Bachelor of Science in Computer Science

2015

Guru Nanak Dev University, India
