SUMMARY

- 2+ years of total IT experience in the Analysis, Design, Modeling, Development, Implementation, and Testing of Data Warehouse applications and acquired excellent analytical, coordination, and interpersonal skills.
- Capable of IDEs like Jupyter Notebook and Spyder.
- Well-Versed in implementing Logistic Regression and skilled in Random Forests, Decision Trees, Linear Regression model and Naïve Bayes, SVM, Supervised Learning, K-NN, Unsupervised Learning, Classification, K Means, and CNN.
- Proficient in using various packages in Python like pandas, NumPy, Seaborn, SciPy, matplotlib, and sci-kit-learn.
- Working knowledge of building models with deep learning frameworks like TensorFlow, PyTorch and Keras.
- Proficiency in Text Analytics, generating Data Visualization using Python, and creating dashboards using tools like Tableau and Power BI.
- Knowledge of Databases such as PostgreSQL and MySQL.

SKILLS

Programming Languages: SQL, Python

IDEs: Jupyter Notebook, Spyder

Machine Learning: Regression, Random Forest, Association Rules, Support Vector Machine, Logistic Regression, k-Means, Clustering, Classification, KNN, Deep Learning

Visualization Tools: Tableau, Power BI, Microsoft Excel, Python - Tkinter

Packages: ggplot2, Pandas, NumPy, Scikit-learn, PyTorch, TensorFlow, Keras, Spark, Matplotlib, SciPy, BeautifulSoup

Database: MySQL, PostgreSQL

Other Skills: Data Cleaning, Web Scraping, Critical Thinking, Communication Skills, Presentation Skills, Problem-Solving

Operating Systems: Windows, Linux

EXPERIENCE

Arizona State University, USA | January 2024 – May 2024 | Graduate Teaching Assistant – “Analyzing Big Data”

- Provided constructive feedback and graded assignments for over 100 students on-site.
- Ensured precise and timely completion of ‘Analyzing Big Data’ assignments assessments with a 100% success rate.
- Engaged weekly in student projects and discussions to address assessment queries.
- Maintained Google Sheets for student information and records of plagiarism incidents to assist professors.

Siksha O’ Anusandan University, India | August 2022 – July 2023 | Senior Data Analyst and Corporate Trainee

- Implementing Agile Methodology for building an internal application.
- Optimizing SQL queries used in batch processing and Writing validation scripts in SQL to validate data loading.
- Develop and implement predictive models using machine learning algorithms such as linear regression, classification, multivariate regression, Naive Bayes, Random Forests, K-means clustering, and KNN for data analysis.
- Working with data analysis to do data visualizations for a better understanding of customers' behaviors.
- Developed Spark scripts by using Scala shell commands as per the requirement.
- Extensively use PyTorch and Keras to build and train deep learning models.
- Developing Tableau visualizations and dashboards using Tableau Desktop.

ExcelR Solutions, India | December 2021 - June 2022 | Data Analyst Manager

- Implemented waterfall method of Software Development Life Cycle methodology for design, development, and implementation.
- Worked on IDEs such as Jupyter Notebook and Spyder.
- Implemented Classification using supervised algorithms like Logistic Regression, Decision trees, KNN, and Naive Bayes.
- Utilized machine learning algorithms such as linear regression, naive Bayes, Random Forests, K-means, and KNN for data analysis.
- Used Pandas, NumPy, seaborn, SciPy, matplotlib, and sci-kit-learn in Python for developing various machine learning algorithms.
- Performed slicing and dicing of data using SQL and Excel for data cleaning and data preparation.
- Developed Power BI reports and dashboards from multiple data sources using data blending.
- Installed and configured PostgreSQL databases and optimized PostgreSQL.

EDUCATION

Master in Management of Technology | Arizona State University - West, Mesa, AZ | GPA 3.8/4

Master in Computer Science and Engineering | National Institute of Technology Goa, India

Bachelor in Information Technology | University of Pune, India
