

EDUCATION

Arizona State University

August 2025 - Present

Master of Science in Computational Life Sciences

Relevant Courses: Data Analysis & Visualization in R, Health Data Management, Statistical Models for Biology, Big Data in Context, Machine Learning Applications, Systems Biology of Disease

University of Colorado Denver

May 2025

Bachelor of Science in Biology

Relevant Courses: Applied Statistics, Microbiology and lab, Genetics, Chemistry, Biotechnology, Cell Biology of Disease

EXPERIENCE

Natera,

Laboratory Data Specialist, Austin, TX

May 2025 - Present

- Accurately enter, process, and validate high-volume laboratory data using LIMS and Excel, ensuring strict adherence to internal quality standards and regulatory requirements.
- Perform comprehensive data reviews, identifying inconsistencies and executing corrective actions to maintain data integrity and minimize processing errors.
- Support audit readiness and compliance initiatives by documenting workflows, maintaining detailed performance logs, and following established SOPs.
- Collaborate cross-functionally with technical, operations, and quality assurance teams to streamline data workflows and improve reporting accuracy.
- Apply strong organizational and analytical skills to track sample status, monitor turnaround times, and ensure efficient data throughput across departments.
- Assist in the development of process optimization and continuous improvement initiatives (including 5S and TAG), leading to measurable improvements in accuracy and operational efficiency.

Seven Eleven Company,

July 2021 - May 2025

Manager, Thornton, CO

- Managed inventory data, daily reports, and transaction records to maintain smooth operations and compliance.
- Applied Excel analysis of sales trends to optimize product placement and reduce waste.
- Ensured data accuracy and workflow documentation across multiple shifts and teams.
- Trained and supervised staff on documentation procedures and system input standards.

Platte Valley Pharmacy,

Pharmacy Technician, Brighton, CO

May 2019 - August 2022

- Accurately entered and maintained patient, prescription, and inventory data in accordance with privacy regulations.
- Conducted data validation and error reconciliation, improving record reliability.
- Collaborated with pharmacists and providers to support accurate, efficient data flow across departments.

SKILLS

Highly proficient in Microsoft Excel for advanced data entry, validation, and reporting, including the use of pivot tables, formulas, and data verification tools to ensure accuracy and consistency across large datasets. Experienced with data management systems such as LIMS and skilled in maintaining organized and compliant records for audits and quality control. Adept at data cleaning, tracking, and documentation to improve workflow efficiency and minimize errors. Familiar with R, SQL, and Python for basic data manipulation and analysis, and currently expanding expertise in Tableau and Power BI to enhance data visualization and reporting. Recognized for strong attention to detail, reliability, and the ability to meet tight deadlines while maintaining the highest standards of data accuracy.

Languages: Proficient English, Punjabi, and Hindi
