1246 West Pratt Blvd, Apt 912, Chicago IL 60626

Profile

Experienced clinical research professional with over five years of experience in patient recruitment, study coordination, and data management to ensure regulatory compliance. Proficient in using SAS and R to analyze complex public health datasets. Actively seeking a Clinical Research Coordinator role where I can apply my analytical skills and operational expertise to support high-quality, patient-centered research.

Education

08/2023 – 09/2025 Chicago, United States	University of Illinois, Chicago Master of Science in Epidemiology
08/2015 – 08/2017 Kolkata, India	Jadavpur University Master of Pharmacy in Clinical Pharmacy and Pharmacy Practice
08/2011 – 05/2015 Kolkata, India	Maulana Abul Kalam Azad University (formerly known as West Bengal University of Technology) Bachelor of Pharmacy

Professional Experience

05/2025 – 08/2025 Chicago, United States	Field Research, Department of Pediatrics Stanford University, School of Medicine - Supported Stanford & NYU-led study on added sugar warning labels, conducting remote fieldwork, and resolving survey implementation issues in Chicago. - Screened and enrolled participants as per Stanford IRB protocols, ensuring compliance, data accuracy, and ethical standards.
01/2024 – 09/2025 Chicago, United States	Graduate Research Assistant, Environmental and Occupational Health Sciences University of Illinois Chicago, School of Public Health - Led data collection and reporting to track poison-related illness trends across Illinois, supporting statewide public health efforts. - Analyzed clinical and epidemiological data using SAS and R to drive evidence-based insights. - Presented research at major conferences, translating complex findings into clear, actionable information for diverse audiences.
02/2020 – 10/2022 Kolkata, India	Clinical Pharmacist, Department of Critical Care Manipal Hospital, Dhakuria - Coordinated randomized controlled studies, post-market surveillance studies, & Indigenous research from startup activities through closeout, ensuring protocol adherence. - Managed study drug accountability & shipped supplies from sponsors & monitored compliance with regulatory standards. - Evaluated eligibility for research participation and assisted patients with informed consent, appointments, and follow-ups. - Collaborated with healthcare teams to improve protocols and enhance participant recruitment strategies according to Good Clinical Practice & Institutional Review Board guidelines. - Prepared study updates, adverse event assessments, and summary reports for Principal Investigators, sponsors, or CROs. - Collected data & analyzed complex research datasets using Excel and wrote manuscripts and reports for publication. - Managed electronic Case Report Forms using InForm and vData EDC software and trained staff to improve data integrity for regulatory submissions. - Trained graduate and undergraduate students in internship programs on clinical data management and prescription auditing.
04/2017 – 02/2020 Kolkata, India	Junior Data Analyst, Pharmacovigilance Cognizant Technology Solutions India Private. Limited - Assisted in processing Individual Case Safety Reports (ICSRs), including data entry, coding, and assessing adverse events. - Maintained and updated databases with accurate health and safety data and participated in the migration of databases from Oracle's Aware to Argus Safety. - Ensured compliance with global regulatory requirements (FDA, EMA, etc.) for case reporting and follow-ups.

Skills

Clinical Research — Study Startup and Closeout, Patient Recruitment and Screening, IRB and GCP Compliance, Informed Consent, Protocol Adherence, and Adverse Event Reporting.

Data Management & Analysis — Electronic Case Report Forms (eCRFs), Data Cleaning, Validation, Excel, SAS, R, Manuscript Preparation.

Technical Skills — Microsoft Office Suite (Excel, Word, PowerPoint), Data Management Software, and Web-based Applications.
