EDUCATION

Undergrad: Cornell University | Cornell Bowers CIS & Cornell College of Arts and Sciences

Class of Aug 2025

Major: Information Science, Bachelor of Arts, Data Science Concentration

Awards: Questbridge Finalist, Dell Scholar

Campus Organizations: Women in Computing at Cornell, Cornell Data Journal, ALANA International Funding Committee, Southasian Council, Arabic Language House, Prisoner's Express/Alternatives Library, Muslim Educational and Cultural Association

Relevant Coursework: Intro to Python Object Oriented Programming and Data Structures, Data Science, Consequences of Computing, Intro to Design and Programming for the Web, Networks, Intermediate Design and Programming for the Web, Communication and Technology, Designing Tech for Social Impact, Learning Analytics, Data Driven Web Development, History and Theory of Digital Art, Technology, Behavior, and Society

PROFESSIONAL EXPERIENCE

Extern, Amazon

Remote, USA

Operational Strategist & Data Analyst

September 2025- November 2025

- Analyzed unstructured employee feedback to identify workforce attrition risks, productivity blockers, and key operational pain points within Amazon Fulfillment Centers.
- Created segmented cohort profiles using qualitative data analysis and thematic coding to surface role-specific challenges and recommend targeted interventions.
- Developed business-ready briefing notes and strategy decks synthesizing frontline insights into actionable operational recommendations.

PricewaterhouseCoopers (PwC)

New York, NY, USA

Products and Technology Automation Engineer Intern

June 2024- Aug 2024

- Designed and deployed intelligent automation pipelines using RPA, AI, and ML tools to streamline critical business workflows and eliminate redundancy.
- Engineered scalable automation frameworks and scripting solutions that reduced manual processing by 60%, improving operational efficiency across teams.
- Partnered with PwC's MyAI team to identify, scope, and deliver custom automation systems tailored to client-specific process requirements.
- Led rigorous testing and QA cycles, ensuring compliance with enterprise standards while delivering reliable and high-performance automation solutions.

Durland Alternatives Library

Ithaca, NY, USA

Database and Art Manager

September 2023- May 2024

- Administered and maintained the Prisoner's Express database, ensuring 100% accuracy in intake form data and mailing records for over 1,000 incarcerated individuals.
- Streamlined library operations by digitizing cataloging processes, optimizing material organization, and managing front desk workflows.
- Curated and evaluated hundreds of prisoner-submitted artworks, providing detailed feedback to artists and cultivating a meaningful platform for creative expression and rehabilitation.

American Foundation for the Blind

Remote, USA

Accessibility Tester

June 2022 - May 2023

- Executed comprehensive accessibility audits of major websites (e.g., WebMD, Reebok) using screen readers like NVDA and WCAG 2.1 standards.
- Delivered detailed reports on user experience gaps and compliance issues, enabling actionable improvements in digital accessibility for visually impaired users.
- Completed foundational training in digital inclusion, WCAG, and accessible web development, including JavaScript, HTML, and data science tools.
- Collaborated with blind and low-vision apprentices to ensure inclusive feedback loops and co-created accessibility testing procedures.

Cornell Bowers College of Computing and Information Science

Ithaca, NY, USA

CSmore Intern

June 2021- August 2021

- Participated in a selective internship program exploring core computer science topics including object-oriented programming (Java), discrete structures, C, and OCaml.
- Engaged with faculty, researchers, and industry professionals through panels, coding workshops, and academic seminars.
- Contributed to community-building events and professional development sessions focused on diversity in tech and computing education.

LEADERSHIP & TECHNICAL PROJECTS

Women In Computing at Cornell

Ithaca, NY, USA

Web Designer & Developer Subteam Lead

September 2023 - March 2024

- Spearheaded the enhancement of the organization's website by leading the design efforts in Figma, with a sharp focus on improving site navigation and information architecture.
- Implemented cutting-edge visual trends, competitor analysis, and social sentiment insights to develop a highly functional website using HTML, CSS, and React.
- Conducted comprehensive accessibility audits of web pages to ensure inclusivity for users from diverse backgrounds

Cornell Data Journal

Ithaca, NY, USA

Data Scientist & Analyst

February 2023- December 2023

- Spearheaded research into effective data visualization techniques, focusing on illustrating intricate relationship dynamics within the Cornell Relationships dataset.
- Created a Qualtrics questionnaire regarding the personal traits of Cornell students and their relationship preferences
- Collaborated seamlessly with cross-functional teams to ensure the timely and cost-effective delivery of projects and initiatives

Dandilyonn

Remote, USA

App Designer/Developer & Project Lead

June 2023- August 2023

- Leading team of four in creating an award-winning iOS mobile application demo using React-Native and Tamagui (project management and development)
- Created app screen wireframes and implemented prototypes using Canva and Figma, ensuring a user-centric design.
- Conceptualized, designed, coded, and tested an app addressing mental health-related issues among college students, emphasizing the practical impact of the project.
- Leveraged Apple's latest technologies to design features that promote mental well-being, such as mood tracking, mindfulness exercises, and resources.

SKILLS

- Programming Languages:** JavaScript, HTML, CSS, Python, Java, PHP, R, SQL, TypeScript, PowerShell, Kotlin
- Web Technologies & Development:** React, React Native, jQuery, D3.js, Shiny, aRtsy, Figma, HTML/CSS, PHP, Tamagui
- Data Science & Analytics:** NumPy, Pandas, Tidyverse, scikit-learn, Matplotlib, JMP Statistical Software, Jupyter Notebook, JupyterLab, RStudio
- Databases:** SQLite, MySQL, MongoDB
- Tools & Platforms:** Docker, Git, GitHub, npm, Excel, Slack, Outlook, Canva, Visual Studio Code, IntelliJ IDEA, Eclipse, Atom
- Operating Systems:** Mac, iOS
- Analytical & Project Skills:** Mathematics, Critical Thinking, Problem-Solving, Decision Making, Attention to Detail, Machine Learning, Project Management, Project Development, Accessibility Testing, Web Application Development, UX Design, Inclusive Technology, Version Control
- Interpersonal & Leadership Skills:** Communication, Relationship Management, Presentation Skills, Team Collaboration, Leadership, Organizational Skills
