Summary

- Healthcare Data Analyst with 3+ years of experience in data analysis, reporting, and operations optimization across healthcare and life sciences sectors, including U.S.-based SaaS (Veeva Systems) and e-health platforms (PharmEasy India).
- Delivered measurable impact by improving healthcare data accuracy by 25%, reducing onboarding timelines by 30%, and boosting patient engagement and campaign conversion rates by up to 15% through strategic data analysis and visualization.
- Skilled in data quality management and business reporting, with hands-on expertise in Excel, Power BI, Sigma Analytics, Google Data Studio, and SQL for generating actionable insights across patient records, diagnostic data, and operational KPIs.
- Strong cross-functional collaboration background, having worked with product managers, clinicians, engineers, and customer success teams to align data workflows with business rules, ensure regulatory compliance, and enhance delivery performance.
- Proficient in healthcare domain tools and compliance, including EHR systems, diagnostic and claims data, Veeva CRM, HIPAA-compliant reporting, and agile methodologies. Demonstrates excellent communication, time management, and problem-solving skills in high-impact, deadline-driven environments.

Skills

Data Analysis & Reporting Excel (advanced functions, pivot tables, VLOOKUP), Power BI, Google Data Studio, Sigma Analytics, SQL

Data Management & Validation Data Cleaning, Root Cause Analysis, Data Quality Checks, Data Auditing, Healthcare Reference & Affiliation Data

Healthcare Platforms & Domain Knowledge Electronic Health Records (EHR), Diagnostic & Claims Data, Healthcare CRM (Veeva CRM Suite), HIPAA-compliant Reporting, Chronic Care Analytics

Tools & Collaboration Jira, Confluence, Microsoft Teams, Google Workspace, Workflow Documentation, Agile/Scrum Collaboration

Business & Operations Analytics KPI Dashboards, Funnel Analysis, Campaign Tracking, Logistics/Operational Metrics, Patient & Customer Segmentation

Experience

Veeva Systems, USA

Jan 2024 – Present | Remote

Data Analyst

- Analyzed large volumes of healthcare reference and affiliation data to identify data inconsistencies and gaps, improving overall data quality and accuracy by 25% across multiple client datasets.
- Collaborated with cross-functional teams including Product Management, Data Operations, and Customer Success to refine onboarding workflows and align data processing rules with client requirements, reducing onboarding time by 30%.
- Conducted root-cause analysis on data quality issues using Excel and SQL-based tools, contributing to the development of scalable business rules and quality assurance processes.
- Delivered clear, data-driven insights through dashboards and reports using Power BI and Sigma Analytics, enabling stakeholders to make informed decisions on clinical and commercial operations.
- Supported the implementation of process improvement initiatives by documenting current-state workflows, identifying bottlenecks, and recommending enhancements that increased team efficiency by 20%.
- Interfaced with clients and internal teams to translate complex healthcare data requirements into actionable tasks, ensuring compliance with regulatory standards and Veeva product configurations.
- Managed multiple concurrent data analysis projects while maintaining strict adherence to timelines and quality benchmarks, contributing to 100% on-time delivery for client deliverables over the last two quarters.

PharmEasy, India

Jan 2021 – Dec 2022

Data Analyst

- Analyzed user behavior and order trends across medicine delivery and diagnostics verticals, providing actionable insights that led to a 15% increase in repeat customer engagement over three quarters.
- Developed and maintained Excel-based dashboards and reports to track key performance indicators (KPIs) such as order volume, fulfillment rate, and customer churn, enhancing real-time decision-making for operations and marketing teams.
- Identified data quality issues and performed validation across EHR and diagnostic test data, improving data accuracy by 30% and reducing reporting discrepancies in executive dashboards.
- Collaborated with cross-functional teams including Product, Marketing, and Customer Support to translate business problems into data-driven solutions, reducing service resolution time by 20%.
- Conducted root-cause analyses of missed deliveries and delayed diagnostics, contributing to logistics process improvements that resulted in a 12% reduction in delivery SLA violations.
- Created compelling visualizations using Power BI and Google Data Studio to present performance metrics and patient insights to non-technical stakeholders and senior leadership.
- Supported promotional strategy by segmenting user data and evaluating campaign effectiveness, leading to a 10% uplift in conversion rates during quarterly chronic care subscription drives.

Education

University of Findlay

Jan 2023 – Dec 2024 | Ohio, USA

Master of Science in Health Informatics

Osmania University

Aug 2018 – Jul 2022 | India

Bachelor of Pharmacy

Certifications

- Certified Electronic Health Records Specialist (CEHRS)
