

Anil Kumbham | Business Analyst

MI, USA | +1 (947) 250-9944 | anilkumbham787@gmail.com | [LinkedIn](#)

SUMMARY

Business Analyst with 5+ years of experience delivering data-driven insights, improving process efficiency, and supporting product and technology initiatives across mid-size and enterprise environments. Skilled in requirements analysis, KPI reporting, workflow optimization, and end-to-end UAT execution. Strong hands-on expertise in SQL, Python, Tableau, Power BI, and Excel, with a proven ability to translate business needs into actionable technical solutions. Adept at collaborating with cross-functional teams, driving operational improvements, and supporting strategic decision-making through structured analysis and clear communication.

SKILLS

Business Analysis: Requirements Gathering, BRD/FRD Documentation, User Stories, Use Cases, Process Mapping, Workflow Analysis, Gap Analysis, Functional Specifications, Business Process Improvement, Feasibility Analysis

Data Analysis & Reporting: KPI Tracking, Trend Analysis, Predictive Insights, Dashboard Development, Data Visualization, Data Interpretation, Reporting Automation

Technical Skills: SQL (Joins, CTEs, Aggregations), Python (Data Cleaning, Automation Scripts), Excel (Pivot Tables, VLOOKUP, INDEX-MATCH), Tableau, Power BI (Data Modeling, DAX)

Tools & Platforms: Coupa (P2P/S2O Modules), JIRA, Confluence, Visio, Lucidchart, UAT/Test Management Tools

Project & Methodology: Agile (Scrum, Kanban), Sprint Planning, Backlog Grooming, Cross-Functional Collaboration, Risk Identification

Domain Knowledge: Financial Services, Procurement & Spend Management, Operational Efficiency, Credit Risk Monitoring, Product Strategy Support

Soft Skills: Analytical Thinking, Stakeholder Communication, Problem-Solving, Attention to Detail, Time Management, Decision-Making

EXPERIENCE

Business Analyst | Capital One Financial | MI, USA

Mar 2024 - Present

- Identified business challenges and improvement opportunities through KPI analysis and customer behavior insights, driving 12% better operational decision-making.
- Conducted data modeling and pricing analysis for new product strategies, contributing to a 9% increase in customer engagement.
- Supported credit risk management by monitoring consumer credit trends and validating risk models, reducing delinquency exposure by 6%.
- Executed process improvement initiatives through structured problem framing, solution development, and feasibility assessment, resulting in consistently 15% faster operational workflows.
- Improved SQL queries and Python scripts to analyze large datasets, automate reports, and reduce data retrieval time by 30%.
- Built Tableau dashboards and presented actionable insights to cross-functional teams, enhancing stakeholder visibility and decision-making.

Business Analyst (Intern) | Coupa Software | MI, USA

Dec 2023 - Feb 2024

- Collaborated with business stakeholders to gather and document detailed requirements, workflows, and processes, translating them into functional specifications for technical teams.
- Analyzed Procure-to-Pay and Source-to-Order processes, identifying inefficiencies and recommending improvements that lessened processing, cycle, and operational time by 15%.
- Facilitated in configuring Coupa modules, ensuring system functionality, compliance, and integration aligned with business needs.
- Expanded and executed comprehensive end-to-end user acceptance testing (UAT) and regression test plans, achieving 98% defect, error, and issue resolution before deployment.
- Created reports and dashboards to monitor key performance indicators (KPIs), improving visibility into procurement, spend, supplier trends.
- Prepared user documentation & training materials, supporting end-user adoption and reducing onboarding, training, and support time by 20%.

Business Analyst | HCL Technologies | India

Apr 2020 - Jul 2022

- Gathered and documented detailed business requirements, translating them into functional specifications to support cross-functional IT and business teams.
- Conducted comprehensive data analysis using Power BI & Excel, identifying actionable trends that improved operational efficiency by 18% and reduced overall reporting time by 20%.
- Collaborated with stakeholders to optimize business processes, streamlining workflows and enhancing project delivery timelines by 15%.
- Helped user acceptance testing (UAT) for multiple software implementations, ensuring system functionality aligned with business needs and reducing post-launch defects by 12%.
- Utilized agile methodologies (Scrum & Kanban) to manage project tasks, track progress in JIRA, and ensure timely delivery of critical, cross-functional, and high-priority initiatives.
- Enhanced dashboards and reports to monitor KPIs, enabling leadership to make data-driven decisions that increased productivity and minimized resource bottlenecks.

Junior Business Analyst | KPIT Technologies | India

Feb 2019 - Mar 2020

- Identified and documented business requirements by collaborating with cross-functional teams, improving clarity of deliverables and reducing rework efforts by 15% through structured, accurate, and efficient analysis.
- Analyzed workflows and data patterns to identify inefficiencies, recommending process adjustments that improved task turnaround time by 10%.
- Aided creation of BRDs, use cases, and process maps, enhancing documentation accuracy and ensuring alignment with project objectives.
- Advised in UAT planning and execution by preparing test cases and validating system behavior, reducing defect leakage to production by 12%.
- Coordinated between business stakeholders and technical teams to clarify requirements and maintain project alignment, improving communication flow and issue resolution speed.
- Monitored project progress, flagged potential risks, and assisted status reporting activities, helping maintain on-time delivery for key project milestones through proactive, structured, and risk-aware management.

EDUCATION

Master's in Engineering Management | Trine University, Michigan | USA

May 2024

Bachelor's of technology | Geethanjali College of engineering and technology | India

Aug 2019
