SUMMARY

Software Engineer with hands-on experience in developing and deploying scalable web applications using React, Node.js, Java, and AWS. Proven ability to translate complex requirements into functional, user-centric solutions. Demonstrated success in collaborative team environments, delivering quality code on tight timelines. Strong communication, problem-solving, and analytical skills, with a focus on frontend engineering and cloud-native application development.

EDUCATION

The George Washington University

Aug 2023 - May 2025

Master of Science, Computer Science

- **Coursework:** Design and Analysis of Algorithms, Software Engineering, Cloud Computing

Kalinga Institute of Industrial Technology

Jul 2018 - May 2022

Bachelor of Technology, Computer Science and System Engineering

- **Coursework:** Object-Oriented Programming, Data Structures, Operating Systems, Computer Networks

EXPERIENCE

Nextqore Inc.

Feb 2025 - Present

Frontend Engineer Intern

McLean, Virginia

- Revamped responsive dashboard in React based on Figma specs, boosting UI consistency by 40%
- Developed role-based authentication with service roles from local storage to strengthen app security
- Optimized MongoDB query integration for filtering data based on user-selected parameters

Cardinal Integrated Technologies

Jun 2024 - Nov 2024

Software Engineer Intern

Princeton, New Jersey

- Spearheaded collaboration with UX/UI designers to refine application wireframes, aligning with brand guidelines
- Implemented Axios interceptors in a React App to reduce UI errors by 40% and eliminate duplicate API calls
- Designed 10+ reusable React Formik components with custom Yup validations, reducing form-related bugs by 35%

HSBC Technology

Apr 2022 - Jul 2023

Software Engineer

Hyderabad, India

- Standardized payroll files by developing a Node.js parser with RegEx, saving 8 hours of manual data entry weekly
- Created payroll analytics dashboards utilizing Express.js, MongoDB, and AWS S3, ensuring on-time sprint delivery
- Reduced merge conflicts by 30% by implementing Git version-control workflows with strategic branching patterns
- Engaged in product decisions and established achievable development deadlines using agile methodologies

HighRadius

Apr 2021 - May 2022

Functional Consultant Intern

Bhubaneswar, India

- Created project-cloning feature in React to duplicate configurations, reducing setup time by 75%
- Implemented SQL query indexing to resolve critical exceptions, increasing Payment Remittance linking by 93%
- Collaborated cross-functionally to address over 200 Jira tickets, enhancing OCR accuracy for invoice processing

PROJECTS

AI Recipe Generator

Feb 2025

- Developed an AI-powered recipe generator in Next.js/TypeScript, generating personalized recipe based on user preferences
- Implemented secure user authentication and row-level data access control with Supabase Auth
- Achieved 95% code coverage by writing unit tests with Jest and documenting UI components using Storybook

Student Assist LLM Chatbot | GPT-4, Node.js, Flask, React, Redux, FAISS, Whisper

Nov 2023

- Built a React chatbot interface, assisting users to upload and chat with audio/video files across over 50 sessions
- Integrated GPT-4 and Whisper APIs into Flask/Node.js stack for async processing, ensuring accurate responses
- Enhanced material retrieval precision to 85% by implementing FAISS vector search on transcript embeddings

Sign Language Assistant | React, Python, OpenCV, TensorFlow, Google Assistant SDK

Apr 2022

- Developed a responsive React UI with camera integration for real-time capture of custom sign-language gestures
- Led Python backend development using OpenCV and TensorFlow for custom sign-to-keyword mapping
- Integrated gesture recognition pipeline with Google Assistant SDK for instant voice command translation

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, Java, C, C++
- **Frontend:** React, Next.js, Angular, Vue, HTML, CSS, Tailwind CSS, Vercel
- **Backend:** Node.js, Flask, REST APIs, AWS (EC2, S3, Lambda), Docker
- **Databases:** MySQL, PostgreSQL, MongoDB
