

ANIRUDH REDDY KALLU

Data Analyst

Hammond, IN | +1 (219) 237-0006 | kanirudhr0@gmail.com | [LinkedIn](#)

SUMMARY

Highly skilled as a Data Analyst with over **4+ years** of experience in the **financial services, healthcare, and hospitality** domains. Skilled in **SQL, Python, Power BI, Tableau, and Excel** for data extraction, pipeline automation, dashboard development, and anomaly detection. Proficient in managing **ETL workflows**, building **cloud-based reporting tools**, and supporting decision-making through **data-driven insights** across diverse teams.

PROFESSIONAL EXPERIENCE

Data Analyst / SE | McKesson | IN, USA

May 2025 – Current

- Automated validation of 750,000+ pharmaceutical claims using **SQL, Python, AWS Lambda**, and **Redshift**, eliminating 14+ hours of manual work weekly and improving compliance with reimbursement and formulary rules.
- Developed interactive **Power BI dashboards** (SQL Server + DAX) to track **drug utilization, adherence metrics, and claim outcomes**, enabling 10+ teams to detect outliers and resolve pharmacy-related issues one reporting cycle earlier.

Data Analyst / SE | McKinsey & Company | IN, USA

August 2024 – May 2025

- Architected **SQL-based ETL pipelines** to process **1.2 million+ trade records** from **Oracle** and **Snowflake**, improving regulatory reporting and cutting delivery time by **9 hours per cycle**.
- Formulated **Power BI dashboards** using **Redshift** and internal marts, enabling **6 risk officers** to monitor **financial exposure** and improve decision speed by **3 days**.
- Deployed **Python anomaly detection scripts** using **Pandas** and **regex** to scan **treasury logs**, enhancing fraud detection and flagging over **800 critical mismatches monthly**.
- Aligned **DBT models** across **15 data feeds** and tuned **SQL Server logic** in **Jupyter Notebooks**, reducing **schema mismatches by 40 cases quarterly** and eliminating **12 recurring data exceptions**.

Graduate Assistant | Purdue University Northwest | Hammond | IN

September 2022 – May 2024

- Deployed **student record processing** using **SQL** and **Excel macros**, enabling accurate data retrieval across **3 departments** and saving **6 hours weekly** on manual tasks.
- Created **Excel templates** with **SharePoint** and **SOPs** to improve access for **250+ students** and onboard **5 student workers**, cutting training effort and log retrieval by **4 hours per audit**.
- Interpreted **departmental trends** using **Python (Pandas, Matplotlib)** to evaluate **lab usage** across **2 campus locations**, supporting decisions that optimized **room scheduling**.
- Coordinated with faculty using **Outlook** and **university portals** to manage exam logistics for over **400 students** each semester, ensuring conflict-free delivery.

Data Analyst | Airbnb | India

August 2021 – June 2022

- Retrieved insights from **1.5 million guest records** using **SQL** and **Python (Pandas, NumPy)** to analyze booking patterns, enabling pricing adjustments across **5 regional markets**.
- Engineered **ETL pipelines** using **MongoDB**, internal APIs, and user feedback to support **7 A/B test campaigns**, cutting turnaround time by **4 days** and accelerating feature releases.
- Constructed **Tableau dashboards** to visualize engagement across **12 cities**, enabling **KPI refinement** and identification of over **300 suspicious listings** using **Scikit-learn models**.

Data Analyst Intern | Airbnb | India

January 2021 – July 2021

- Sourced **guest activity logs** using **SQL** and structured them with **Python (Pandas)** to analyze trends across **500,000 records**, enabling improvements in **6 South Asia market segments**.
- Outlined **Excel summaries** from sentiment data in guest reviews, enabling product teams to prioritize **12 UX updates** and speed up rollout decisions by **2 weeks**.
- Validated **ETL outputs** from **MongoDB** and internal APIs, resolving **28 data issues** with QA teams to ensure clean input for **pricing recommendation engines**.

TECHNICAL SKILLS

Programming Languages: Python, SQL, Java, R, Scala, DAX

Analytics Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Tensor Flow, Keras, XGBoost

Databases: SQL Server, PostgreSQL, MySQL, MongoDB, Snowflake, Big Query, Redshift, Netezza, Oracle DB, Cassandra

Visualization Tools: Power BI, Tableau, Excel (PivotTables, Power Query), Looker, Qlik, Google Data Studio

ETL & Workflow Tools: Apache Airflow, AWS Glue, DBT, Talend, Informatica, Matillion, Alteryx

Cloud Platforms: AWS (S3, EC2, Lambda, Redshift, Glue), GCP (BigQuery, Cloud Functions), Azure (Data Lake, Azure SQL)

Big Data Tools: Apache Spark, PySpark, Data bricks, Hadoop, Flink, Kafka

Machine Learning & AI Tools: Scikit-learn, Tensor Flow, Keras, PyTorch, MLlib (Apache Spark), H2O.ai

Version Control: Git, GitHub, GitLab, Bit bucket

Collaboration Tools: JIRA, Confluence, Slack, Trello, Microsoft Teams

Data Validation Techniques: Data Reconciliation, A/B Testing, Anomaly Detection, Data Integrity Checks, Regression Testing, Data Mining, Data Cleaning, Data Governance, Data Profiling, Outlier Detection, Data Audits, Data Quality Assurance, Metadata Management

Documentation & Reporting: Business Requirements (BRD), SOPs, KPI Frameworks, Technical Documentation, User Stories

EDUCATION

Purdue University Northwest | Hammond | IN

August 2022 - May 2024

Master of Science in Computer Science | **GPA: 3.64/4.0**

Geetanjali College of Engineering and Technology | Hyderabad, India

June 2018 – July 2022

Bachelor of Technology in Computer Science | **GPA: 8.48/10.0**

CERTIFICATIONS

Oracle Certified Associate, Java SE8 Programmer
