

Anirudh Reddy Kalam

Data Analyst

Texas, USA | +1 (737)3517262 | anirudhreddykalam@gmail.com | www.linkedin.com/in/anirudhkalam

SUMMARY:

Data Analyst with 2+ years of experience delivering insights to support business strategy, operations, and decision-making. Specialized in **SQL and Python** for data manipulation, modeling, and automation. Proficient in developing interactive dashboards with **Power BI and Tableau** to monitor **KPIs** and optimize performance. Skilled in building **ETL pipelines** using **Azure Data Factory** and working with **Salesforce CRM**. Experienced in A/B testing, predictive analytics, and identifying trends to drive growth. Strong background in cross-functional collaboration and data governance compliance.

EXPERIENCE:

Jaad Consulting Private Limited, India

Oct 2021 – Mar 2023

Data Analyst

- Built and scheduled automated ETL pipelines using Azure Data Factory (ADF) to extract Salesforce CRM data via REST APIs and load it into Azure SQL Database.
- Configured pipeline triggers, parameterized datasets, and incremental data loads using dynamic SOQL (Salesforce Object Query Language) to ensure daily data refreshes, improve data availability, and reduce manual workload by 40%.
- Utilized SQL to query large datasets on Azure SQL Database for financial reporting, customer segmentation, and measuring marketing campaign performance.
- Standardized GL account classifications and CRM tagging frameworks to improve financial reporting and customer segmentation, while conducting cohort and funnel analysis to optimize marketing strategies and improve visibility into revenue-impacting activities.
- Designed and developed Power BI dashboards using DAX and Power Query to visualize key performance indicators (KPIs) including campaign performance, funnel progression, and operational bottlenecks.
- Built predictive models using Python (Scikit-learn) to forecast customer churn and purchasing behavior based on Salesforce activity, campaign responses, and transaction history.
- Collaborated with cross-functional teams to document data workflows, maintain process consistency, and ensure compliance with governance standards such as GDPR and CAN-SPAM.

VDOIT Technologies Private Limited, India

Dec 2020 – Aug 2021

Data Analyst Intern

- Developed and maintained Tableau dashboards to deliver key financial and operational metrics, supporting strategic decision-making across business units.
- Automated ETL workflows using SSIS (SQL Server Integration Services) to streamline data integration processes, ensuring data accuracy and consistency while reducing manual intervention.
- Utilized SQL in SSMS (SQL Server Management Studio) to query and analyze large financial and operational datasets, alongside Excel (Pivot Tables, VBA) to manipulate and report on data related to budgeting, forecasting, and performance tracking.
- Supported exploratory data analysis using Python (Pandas, NumPy), helping identify operational trends and performance insights.
- Gained practical experience in business intelligence and data transformation within a collaborative team environment.

SKILLS:

- Languages:** Python, R, SQL, SOQL, Bash.
- Packages:** Pandas, NumPy, Scikit-learn, Statsmodels, Matplotlib, Seaborn, Plotly Dash.
- Visualization Tools:** Tableau, Power BI, MS Excel (Pivot Tables, VBA).
- Big Data Tools:** Apache Spark, Hive.
- Cloud Platforms:** Azure (Data Factory, SQL, Synapse), Snowflake, AWS (EC2, S3, RDS), Google Cloud Platform (BigQuery).
- ETL and CRM Tools:** SSIS, SSIS, Apache Airflow, Salesforce CRM.
- Other Tools:** Jupyter Notebook, Git, GitLab, Jira, SAP Hana S4.
- Other Skills:** EDA (Exploratory Data Analysis), SaaS Analytics, Data Cleaning, Data Wrangling, Data Warehousing, Data Mining, Data Migration, Data Governance, Data Storytelling, Data Normalization and A/B Testing.

EDUCATION:

Master of Science in Computer Information Systems

Apr 2023 – May 2025

University of Houston - Clear Lake, Tx

Bachelor of Technology in Computer Science and Engineering

Aug 2018 – July 2022

Jawaharlal Nehru Technological University, Hyderabad, India

CERTIFICATIONS:

- Microsoft Certified: Power BI Data Analyst Associate.
- AICTE Training certification in AWS.
