Education

Iowa State University | Ames, IA

Aug 2023 - Expected May 2027

Bachelors in computer science & Minor in Entrepreneurship and Applied AI

GPA: 3.41/4.0

Work Experience

Iowa State University, Centre of Excellence in Learning and Teaching | Ames, IA

Team Leader, IT and Media Production | Jul 2024 – present

- Led and coordinated the classroom recording team under CELT, managing daily operations, quality control, and accessibility while mentoring staff on AV systems and media workflows.
- Oversee project execution, ensuring efficiency, quality control, provide technical support and IT troubleshooting to ensure smooth media production, streaming, delivery across campus platforms and adherence to accessibility and branding standards.
- Collaborated with instructors and administrators to enhance digital learning through technology integration, improving engagement and aligning with academic goals.

American Job Centers of Middle TN | Franklin, TN

Intern, Data & Operations Management | May 2025 – Jul 2025

- Maintained and organized large volumes of client information using Excel, ensuring records were accurate, consistent, and regularly updated. Implemented quality checks that reduced errors and improved reliability of client data used for reporting.
- Served as a primary point of contact for client inquiries and application follow-ups. Provided timely support and resolved issues, improving client satisfaction and helping applicants move smoothly through service pipelines.
- Developed comprehensive user manuals and step-by-step process guides, enabling colleagues to complete technical and administrative tasks with greater efficiency and independence. Also trained new staff and interns on data entry procedures, client communication protocols, and organizational workflows.

Academic Projects

Explore Ames – Web Development Project | *Construction of User Interfaces*

- Developed a responsive multi-page website showcasing shop, local attractions, diners in Ames, Iowa using HTML, Bootstrap components, custom CSS, Bootstrap 5 and JavaScript to enhance layout, accessibility, and interactivity.
- Added authentication and admin functionality, integrating MongoDB for secure data storage and management. Implemented login/signup, logout, and username display features, along with complete CRUD operations (create, read, update, delete) for both user and review management.
- Collaborated via GitHub using issues, branches, and pull requests for version control and peer review, while developing dynamic UI components such as catalog cards, accordion-style FAQs, and a unified navigation/footer.

Model Train Simulation | *Java*

- Developed and connected multiple path and link classes (CouplingLink, TurnLink, SwitchLink, MultiSwitchLink, etc.) implementing Crossable and Traversable interfaces.
- Implemented a model train simulation using Java interfaces, inheritance, and composition to design a clean, extensible class hierarchy with minimal code duplication.
- Created and tested abstract and concrete classes (AbstractLink and subclasses) to manage train movement, link switching, and position vector transitions between paths.

Leadership & Activities

Destination Iowa State (DIS), Iowa State University

Team Leader | Aug 2025

- Demonstrated leadership by guiding and mentoring 20 new students during Destination Iowa State 2025, coordinating activities and fostering engagement to ensure a smooth transition to campus life.

Grammar Platform Evaluation, Iowa State University

Student Representative | Mar 2025 – Apr 2025

- Represented students in a \$360K+ university-wide grammar platform evaluation, conducting comparative vendor analysis (Grammarly, Vantage, SIR) on usability, accessibility, analytics, and cost models, and contributing to the final selection.

Indian Student Association (ISA), Iowa State University

Logistics Head & Active Member | Feb 2024 – Mar 2025

- Managed logistics for cultural events, coordinating venue setup, scheduling, and vendor communication while supporting 200+ student attendees and boosting engagement through efficient outreach and registration.
