PROFESSIONAL EXPERIENCE

Financial Analyst

Blue Ocean Financial | USA | May 2024 – Current

- Assisted in the **rollout of a financial reporting system** across 5 departments after a franchise acquisition, ensuring full **GAAP compliance** and improving reporting accuracy by **25%**.
- Generated and delivered **monthly budget vs. actual reports** to senior leaders using **Hyperion** and **B&F**, covering a combined **\$12M+ annual budget**.
- Identified and explained **variances over 10%** to budget for multiple cost centers, helping reduce overhead expenses by **8%** in 6 months.
- Supported **monthly close** and **balance sheet reconciliations** for key accounts: **Accrued Revenue (\$500K+)**, **WIP**, **CapEx**, and **Unbilled Media**.
- Partnered with FP&A to build **quarterly forecasting models** that improved forecast accuracy by **15%**, aligning better with business unit trends.
- Helped prepare financial schedules and notes for **10-Q and 10-K filings**, meeting all internal deadlines and audit requirements.
- Collaborated on SAP general ledger updates; created a new **chart of accounts** used company-wide by **150+ employees**.
- Built a **payroll cost forecast model** in Excel that improved HR budget planning and identified **\$100K in unused headcount funds**.
- Responded to over **30+ ad-hoc analysis requests**, supporting strategy, cost reviews, and vendor contract decisions.

Equity Research Analyst

360 Huntington Fund | Boston, MA | Sep 2023 – Dec 2023

- Researched IT industry trends and market movements to identify promising investment opportunities, ultimately recommending **Endava**, which delivered an **11% return**, outperforming the benchmark by **6%**.
- Built **10+ valuation models** (DCF and market multiples) using **Bloomberg**, helping guide investment decisions that contributed to a **15% increase in portfolio profits**.
- Created in-depth reports on **10+ IT companies**, uncovering opportunities for **\$2M+ in cost savings** and **\$5M in revenue growth**, providing valuable insights for strategic decision-making.

Financial Analyst

Invest Mitra | India | May 2022 – Aug 2023

- Managed monthly G&A performance reporting** for key departments, ensuring accurate and timely financial reports using **QuickBooks** while overseeing **Balance Sheet GL account reconciliation**.
- Developed and implemented data quality control frameworks** in **Tableau**, improving financial system accuracy and addressing audit and regulatory requirements.
- Conducted in-depth statistical analysis and hypothesis testing**, uncovering key business insights that **drove process improvements and strategic decision-making**.
- Automated data imports/exports** for financial analysis and troubleshooting, streamlining reporting processes and enhancing efficiency.

Operations Analyst Intern

Sigma Info Solutions | India | Dec 2021 – May 2022

- **Analyzed and monitored vending operations data** using dashboards and statistical tools, improving operational efficiency.
- **Enhanced Excel dashboards** across multiple centers, leading to a **10% reduction in operational and manpower costs**.
- **Assisted in the migration of TEbillion CRM**, conducting pilot testing and acting as a **bridge between teams** to ensure a smooth transition.
- **Conducted market research** to support product development, contributing to **service improvements and an expanded product line**.

PROJECTS

Corporate Finance & Cost of Capital Analysis | Northeastern University – Fall 2023 (Boston, MA)

- Analyzed the capital structure and cost of capital for Midland Energy Resources, Inc., a global energy company.
- Conducted a WACC analysis, adjusting levered & unlevered beta to refine investment decision-making.
- Evaluated business segment risks, optimizing capital allocation for exploration, refining, and petrochemicals divisions.
- Assessed potential M&A valuation strategies, ensuring accurate discounted cash flow (DCF) analysis.

Skills: Financial Modeling, WACC Calculation, Capital Structure Optimization, Risk Assessment

Real Estate Investment Analysis – Dallas Market Study | Northeastern University – Fall 2023 (Boston, MA)

- Conducted a comprehensive real estate market study focusing on multifamily housing investments in Dallas, TX.
- Built financial models to calculate Net Present Value (NPV) and Internal Rate of Return (IRR) for investment properties.
- Analyzed vacancy rates, rental growth, and property value appreciation, helping investors optimize financing strategies.
- Evaluated market risks and trends, providing data-driven recommendations for property acquisitions and capital allocation.

Skills: Real Estate Valuation, Financial Modeling, NPV & IRR Calculation, Market Research

Quantitative Finance & Risk Analysis – CAPM Expected Returns | Northeastern University – Fall 2023 (Boston)

- Applied the Capital Asset Pricing Model (CAPM) to evaluate the risk-return tradeoff for a diversified stock portfolio.
- Used historical market data and statistical modeling to compare expected vs. actual returns across various asset classes.
- Explored alternative risk factors beyond CAPM, integrating insights from behavioral finance and multi-factor models.
- Conducted quantitative financial analysis to assess market efficiency and risk-adjusted performance metrics.

Skills: Capital Asset Pricing Model (CAPM), Python, Data Analytics, Portfolio Optimization

Equity Research & Portfolio Strategy – Growth Investment Modeling | Northeastern University – 2023 (Boston)

- Designed a growth-focused investment portfolio following FMAGX's investment strategy, identifying high-growth stocks.
- Conducted fundamental & technical analysis on tech, healthcare, and consumer discretionary stocks, optimizing stock selection.
- Applied risk management techniques and diversification strategies to balance returns and reduce portfolio volatility.
- Used a bottom-up investment approach to analyze company fundamentals and sector growth trends.

Skills: Investment Analysis, Stock Selection, Portfolio Diversification, Risk Management
