

ANJALA MASADI

DATA ANALYST

Hamden, CT | +1-(203)-645-2741 | anjalamasadi.dajob@gmail.com | [LinkedIn](#)

SUMMARY

- **Data Analyst with 5+ years of experience**, proficient in **driving data-driven decisions** through **report development** and **SQL expertise**, with a strong focus on **gathering requirements**, **data collection**, and crafting **insightful reports**.
- Skilled in collaborating with **stakeholders** to design and develop **interactive dashboards** in **Tableau** and **Power BI**, ensuring that visualizations align with business needs and facilitate effective **cross-departmental communication**.
- Practical experience with **data modeling concepts**, including **Dimensional** and **Relational Modeling**, such as **Star-Schema**, **Snowflake Schema**, **Fact Tables**, and **Dimension Tables**.
- Expertise in leveraging **AWS services** (S3, EC2, Redshift, Lambda, Glue) to **build cost-efficient, scalable data processing pipelines**, optimizing **cloud infrastructure costs** and ensuring high-performance data workflows.
- Proficient in designing and implementing **ETL data flows**, using **SSIS** for **data extraction** from SQL servers and handling **data migration** and **transformation** from **Oracle** and **Excel sheets**.

SKILLS

Languages:	Python, R, SQL
IDEs:	Visual Studio Code, PyCharm
ETL & Visualization Tools:	SSIS, Tableau, Power BI, Microsoft Excel
Packages:	NumPy, Pandas, Matplotlib, SciPy, Scikit-learn, Seaborn, Ggplot2, TensorFlow
Cloud Technologies:	AWS (S3, EC2, Redshift, Lambda, Glue)
Database:	MySQL, SQL Server, PostgreSQL, MongoDB
Other Skills:	Data Cleaning, Data warehousing, Data Wrangling

EXPERIENCE

Fifth Third Bank, SC, USA | Data Analyst

JUN 2023 – CURRENT

- Employed **Agile methodologies** to prioritize tasks based on **business value**, enabling strategic resource allocation and ensuring high-impact tasks received the appropriate focus to maximize productivity.
- Leveraged **SQL and SAS** to conduct **in-depth statistical analyses**, uncovering critical business trends and patterns, driving informed decision-making and continuous business improvement.
- Utilized **Power BI DAX** to design **visually compelling charts, graphs, and heat maps**, simplifying complex data for **non-technical team members**, which resulted in a **15% increase in data comprehension** and improved stakeholder engagement.
- Leveraged **advanced features of Pandas** for complex data manipulation tasks, including **merging, grouping, and pivoting** large datasets to enable more detailed and actionable insights.
- Developed **Python scripts for data migration** between systems, ensuring **data integrity** and **minimal downtime**, facilitating seamless transitions and reducing operational disruptions.
- Designed and analyzed **A/B tests** using **Python** to evaluate the effectiveness of **marketing campaigns** and **product features**, helping to optimize strategies and improve business outcomes.

Thomson Reuters, Hyderabad, India | Data Analyst

JUL 2022 – DEC 2022

- Enhanced and maintained a **data warehouse solution** for a large e-commerce client using **SQL Server, SSIS, and SSAS**, resulting in a **40% improvement** in reporting efficiency and enhanced **data accessibility** across departments.
- Led the **ETL process** for data from multiple sources, including relational databases, flat files, & APIs, leveraging **AWS & Python scripts**. This led to a **20% increase in data processing efficiency** & a **15% reduction** in data extraction time.
- Employed **statistical techniques** to assess the impact of **marketing campaigns**, boosting ROI by **20%**. Utilized **Talend Data Quality** to identify and resolve anomalies, resulting in a **15% improvement** in overall **data quality** and **consistency**.
- Implemented **Snowflake's security features**, leading to a **30% reduction** in unauthorized data access attempts and ensuring **regulatory compliance** with industry standards.
- Analyzed 10 large datasets using **Excel pivot tables and charts**, identified 5 key trends, and created **Power BI dashboards** to visualize **KPIs**, improving decision-making speed by **25%** and **delivering actionable insights**.

High Radius, Hyderabad, India | Data Analyst

AUG 2019 – JUL 2022

- Designed and developed **DataStage ETL jobs** to extract data from heterogeneous source systems, transforming and loading it into **Data Marts**, ensuring streamlined data processing for reporting and analysis.
- Utilized **Tableau** for **data visualization** to analyze **market trends**, enabling the identification of potential **economic risks** and providing key insights to stakeholders for informed decision-making.
- Collaborated with **stakeholders** to establish and maintain **data standards** and **naming conventions**, significantly improving **data consistency** and promoting effective **data governance** practices across the organization.
- Implemented **financial calculations** within **Tableau**, such as calculating key ratios like **return on investment (ROI)**, reducing **manual errors** by **20%** compared to previous methods and enhancing the accuracy of financial analysis.
- Built **data warehouses on AWS Redshift** to store and analyze **historical financial data**, supporting **trend analysis, reporting**, and helping to identify **financial risks** while effectively tracking **portfolio performance**.

EDUCATION

Masters in Computer Science | Sacred Heart University, Fairfield, CT 06825, USA.

MAR 2024

Bachelor's in Electronics & Communication Engineering | Sreyas Institute of Engineering & Technology, India

JUL 2019
