

ANJALI GEETHABHAI AMMA

QA AUTOMATION TESTER

Cumming, GA | anjaligeetha1331@gmail.com | +1 805-232-4288 | [LinkedIn](#)

PROFESSIONAL SUMMARY

QA Automation Tester with 2+ years of experience in designing and executing automated test scripts for web applications and APIs. Proficient in performance testing (JMeter), UI automation (Selenium WebDriver/Java), and API testing (Postman/Rest Assured). Experienced in Agile (Scrum) methodologies, defect tracking (Jira/Xray), and integrating automated tests into CI/CD pipelines (Jenkins, Docker). Strong problem-solving skills with a keen eye for identifying performance bottlenecks and ensuring software reliability.

TECHNICAL SKILLS

Test Automation & Tools:	JMeter (Performance/API Testing), Selenium WebDriver (Java), Postman/Rest Assured, TestNG/JUnit, Git
Test Management & Agile:	Jira (Defect Tracking), Xray (Test Cases), Agile (Scrum)
Programming & Scripting:	Java, Groovy (JMeter scripting), SQL (Basic Queries)
CI/CD Basics:	Jenkins (Test Scheduling), Docker (Containerized Testing)
Additional Skills:	Cross-browser Testing (Chrome, Firefox, Edge), Excel/Sheets, Linux Basics

EXPERIENCE

Charles Schwab Group, FL – USA

QA Automation Tester

Jan 2024 – Present

- Collaborating with Agile (Scrum) teams to define test scenarios, estimate test efforts, and ensure timely defect resolution via Jira.
- Developing and maintaining Selenium WebDriver (Java) automation scripts for regression and functional testing, reducing test execution time by 40%.
- Conducting performance and load testing using JMeter, simulating 500+ concurrent users to identify bottlenecks and improve system scalability.
- Integrating automated tests into CI/CD pipelines (Jenkins) to enable nightly test executions and streamline reporting.
- Led test lifecycle from planning to execution defining test strategies, creating test data/beds, and reporting results to meet project timelines and deliverables.
- Performing API testing (Postman/RestAssured) to validate backend services and ensure data consistency.
- Documenting test results and generating performance reports for stakeholders using Xray/Confluence.

Synopsys Inc, VA – USA

Software Tester

Apr 2023 – Dec 2023

- Executed both manual and automated test cases for web applications, achieving 95% test coverage per sprint.
- Identified, logged, and tracked over 150 defects in Jira, collaborating closely with developers to prioritize fixes.
- Assisted in establishing Selenium automation frameworks (TestNG) to expedite regression testing. Validated database integrity using SQL queries (SELECT, JOINS) and ensured API responses aligned with expected outcomes.
- Sprint planning with Business Analyst/Product Owner/Client QA related to requirement and testing.
- Participated in Agile ceremonies, including sprint planning and retrospectives, to align testing with business requirements.
- Conducted cross-browser testing (Chrome, Firefox, Edge) to ensure UI compatibility.

EDUCATION

Bachelor Of Technology in Computer Science
Thangal Kunju Musaliar Institute of Technology - Kerala, INDIA

July 2007
