

ANJANI PRANEET MERUVU

Data Analyst

(607) 205-6696 | ameruvu@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Data Analyst with 4+ years of experience in transforming complex data into actionable insights to drive strategic decision-making across healthcare, finance, and operations. Adept in SQL, Python, Power BI, Tableau, and Excel. Skilled in ETL, dashboarding, data visualization, KPI analysis, and statistical modeling. Proven expertise in cloud platforms like AWS and data engineering tools, including Databricks and Spark. Strong collaborator with leadership experience and a solid academic foundation in Information Systems.

TECHNICAL SKILLS

Programming / Query: Python (pandas, NumPy, scikit-learn, matplotlib, seaborn), SQL (MySQL, Redshift, Snowflake), R, PySpark, SparkSQL

Analytics & Machine Learning: Exploratory Data Analysis, Statistical Modeling, Predictive Analytics, A/B Testing, Time-Series Forecasting, Classification, Regression, Clustering

BI & Data Visualization: Power BI, Tableau, AWS QuickSight, Google Data Studio, Excel (Power Query, Power Pivot, VBA), ggplot2

Cloud & Big Data Technologies: AWS (S3, Glue, Redshift, Athena, Lambda), Azure Synapse, Databricks, MongoDB, Apache Airflow

Data Engineering: ETL / ELT, Data Warehousing, Data Quality, dbt, REST APIs, JSON/XML, Git

Project Management & Agile Tools: Jira, Confluence, MS Project, MS Visio, Scrum, Kanban, Stakeholder Management

Regulatory & Domain Knowledge: HIPAA, HL7, ICD-10, GDPR, SOX

PROFESSIONAL EXPERIENCE

UnitedHealth Group — Data Analyst

Feb 2025 – Present | USA

- Analyzed healthcare data from diverse sources, including EHR systems and claims data, to identify trends, patterns, and opportunities for improvement, resulting in a 35% reduction in unnecessary costs, enhancing patient care and outcomes.
- Performed exploratory data analysis (EDA) to uncover insights such as variations in efficiency among devices using ggplot2 in R, leading to a 15% improvement in understanding device performance and informing targeted optimization strategies.
- Examined the laws and regulations (HIPAA, HL7) before implementing the EMR software.
- Settled and meticulously maintained dashboards and reports utilizing healthcare analytics tools to track key performance indicators (KPIs) and monitor healthcare quality metrics, resulting in a 20% increase in data accessibility.
- Leveraged ETL tools and process design to validate data for Business Intelligence objectives, resulting in a 15% increase in data accuracy and a 10% improvement in report generation efficiency.
- Utilized SQL and data visualization tools to analyze large datasets, enabling data-driven decision-making and providing actionable insights to senior management.
- Created and maintained interactive dashboards and reports using Power BI, providing real-time performance metrics to support executive-level decision-making.

State Street — Data Analyst

Aug 2024 – Nov 2024 | USA

- Incorporated Python and SQL to extract, transform, and analyze data from sources, providing insights to support decision-making.
- Managed project schedules and resources using MS Project and Primavera P, achieving a 15% improvement in project timeline adherence and a 25% increase in resource utilization efficiency.
- Conceptualized AWS services such as S3, Glue, and Redshift for efficient data storage, ETL processing, and data warehousing.
- Implemented business intelligence tools such as Power BI and Tableau to analyze data, resulting in a 20% increase in decision-making efficiency and accuracy.
- Leveraged VLOOKUPS and HLOOKUPS to rigorously validate data integrity, cross-referencing data from datasets, resulting in a 25% enhancement in data accuracy.

Bytes Soft Solution — Data Analyst

May 2020 – Jul 2023 | India

- Contributed to the creation and refinement of Power BI dashboards, leading to a localized 14% increase in data accessibility within the team, which facilitated more efficient strategic planning and resource allocation efforts.
 - Assisted in refining the existing process by integrating Python scripts into Excel-based reporting tasks, which contributed to reducing manual efforts and ensuring timely and accurate generation of financial and operational.
 - Facilitated Scrum ceremonies, including daily stand-ups, sprint planning, retrospectives, and backlog grooming sessions, improving team communication and project transparency by 30%.
 - Experienced in managing projects through the entire lifecycle using Agile and Waterfall methodologies.
 - Proficient in using Microsoft Visio to create comprehensive and detailed business process workflows, flowcharts, and diagrams that visually represent complex business processes and systems.
 - Utilized JIRA for tracking sprint progress and managing user stories, tasks, and bugs, ensuring timely resolution and maintaining a high level of productivity throughout the project lifecycle.
 - Applied machine learning techniques to uncover patterns, predict trends, and enhance data-driven decision-making across business functions.
-

EDUCATION

M.S. in Information Systems – State University of New York, Binghamton | Aug 2023 – May 2025

B.Tech. in Computer Science – Vellore Institute of Technology, India | Aug 2016 – May 2020

PROJECT EXPERIENCE

University Quiz System (Backend Python Developer) – Binghamton, NY [Git](#)

Sep 2023 – Nov 2023

- Built Django-based quiz system with user roles, REST APIs, PostgreSQL backend, and Postman-tested endpoints.
- Achieved high functionality and modular architecture for scalable education software.

Factors Influencing Blockchain Adoption in US – Binghamton, NY [Git](#)

Sep 2023 – Nov 2023

- Analyzed blockchain adoption using TOE Framework and SmartPLS to derive implementation insights.
- Delivered strategic recommendations for blockchain adoption based on quantitative analysis.

Threat Simulation and ML Classification – Binghamton, NY

Aug 2023 – Oct 2023

- Preprocessed network traffic and implemented ML classifiers (SVM, KNN, Decision Tree) to detect cyber threats.
- Demonstrated increased model accuracy for enhanced threat detection mechanisms.

LEADERSHIP EXPERIENCE

President, Graduate Student Organization (GSO) – Binghamton, NY

June 2024 – Present

- Led university-wide graduate student initiatives and represented student interests on key committees.
- Spearheaded mental health campaigns and workshops, promoting student wellness and engagement.
- Fostered community through professional development and outdoor skill-building programs.
