

ANJANI PRIYA PANUGANTI Dallas, TX 972-822-5865 anjanipriya298@gmail.com LinkedIn	
SUMMARY	
Highly experienced Data professional with proficiency in Python, SQL, Power BI and Tableau with special focus on Data Engineering, Analysis and Database administration. Expertise in developing ML algorithms and data automation. Excellent problem-solving skills and practical experience in handling big data integration, reporting, analysis and improvement of organizational decision making. Desiring to have a positive impact on change as a Data Engineer, Data Scientist, or Python Developer.	
SKILLS	
Programming Languages: Python, Java, C, C++, HTML, SQL, NoSQL Automation Tools: Blue Prism, Microsoft Power Automate Data & Analytics: Power BI, Tableau, ML Algorithms Cloud & Systems: Microsoft SharePoint, Microsoft Project, Microsoft Office, Linux Other: AI Prompt Engineering, SEO/SEM Strategies, Product Management Soft Skills: Project Management, Strategic Communication, Task and Time Management, Analytical and Problem Solving, Leadership and Self-Management, Collaboration and Adaptability, Interpersonal and Communication Skills, Negotiation and Dispute Management	
WORK EXPERIENCE	
Data Analyst Anblicks Inc., Remote, USA - Automated data extraction and transformation with Python and SQL, cutting manual processing time by 40% and increasing data accuracy for faster decision-making. - Developed real-time dashboards in Power BI and Tableau, enhancing operational efficiency by 25% and delivering actionable insights to executives. - Used machine learning algorithms, including linear regression, to analyze customer behavior, leading to a 15% boost in customer retention through targeted marketing. - Conducted statistical analyses to identify key performance metrics and trends for strategic business decisions. - Designed and maintained comprehensive data documentation and reports to support transparency and data governance. - Tech Stack: Python, SQL, Power BI, Tableau, Machine Learning.	May 2024 – Present
Process Automation Intern Xcel Energy, Dallas, TX - Launched Blue Prism’s queues, release packages, process studio, object studio, and control room to minimize processing time through automating tasks, saving 40% of time and proving our proficiency in Robotic Process Automation (RPA) solutions. - Executed an automation solution for Salesforce bulk file uploads which reduced the burden on the analysts and the employees by 30% and at the same time, ensured considerable accuracy. - Implemented automation related and blended with SharePoint, MS Word, and Outlook and increased the business processes and increased the efficiency up to 25%. - Automated the creation and delivery of claim letters enhancing throughput by 35%, and decreasing customer complaints by 20% and allowing the legal department work on more profitable tasks. - Promoted in the company’s weekly ITO newsletter for enhancing operative performance in all the divisions to evidence strategic interpersonal communication and management. - Tech Stack: Blue Prism, Salesforce Data Loader, Microsoft Power Automate, Microsoft SharePoint, Microsoft Office.	Jul 2023- May 2024
Data Science Intern Aditi Software Solutions, Hyd., India - Aligned actual-time data graphical representations through enhanced Python coding techniques accompanied by machine learning algorithm standardization which in turn augmented the understanding of real-time data sets by 77%. - Optimized user experience by creating interactive dashboards with Power BI and Tableau, resulting in a 40% increase in engagement rates and a 25% improvement in marketing campaign effectiveness. - Received and processed 65% raw data to improve on the authenticity by reducing the inaccuracy rate by 35%. - Cooperated with other teams in the organization to implement data analysis into decision making strategies and plans as well as projects. - Implemented several solutions that helped in the process of automation of tasks for the purpose of improving the overall organizational efficiency. - Tech Stack: Pandas, NumPY, Jupiter Notebook.	Jan 2022- May 2022
EDUCATION	
Masters in Information Technology and Management (GPA: 3.7/4) University of Texas at Dallas, TX	May 2024
Bachelors in Computer Science and Engineering Jawaharlal Nehru Technological University, India	Aug 2021
PROJECT EXPERIENCE	
Security Evaluation of Patterns under Attack Formulated a Java-based system and incorporated GUI interface to evaluate and analyze the security of pattern classifiers during the design process and measure performance loss under assaults prompting in an 87% increase in overall security and a user experience by 35%. Integrated HTML, JavaScript, JSP servlets, MySQL and JDBC Technologies for successful implementation of the system and identified potential risks through executing simulated attacks on the systems producing an enhanced risk reduction by 67%.	Jan 2021 - Apr 2021
Max: Personal Assistant with Speech Recognition Developed Python 3 script-based Speech Recognition and voice assistant capabilities for the chat-bot application, allowing users to access search results via voice or text command and receive output in various forms, which resulted in reducing response time by 40 % while maintaining accuracy. Merged the offline enabled chat-bot application into 9 devices, accomplishing application and device success and allowing a 55% reduction in user effort that led to customer satisfaction by 40%.	Sep 2020 - Dec 2020
LEADERSHIP EXPERIENCE	
AWS Student Organization (UT Dallas) Club member - Facilitated AWS workshop with a team of 20 to educate over 500 participants on Company roles, driving awareness of job opportunities, leading to increased efficiency by 64%. - Guided Students to Attend Mock interviews with AWS officials, achieving a 60% improvement in interview efficiency.	Oct 2022 – May 2024
ISTE Student Organization Student Secretary - Organized a 36-hour hackathon for 90 plus participants, securing 12 innovative projects and a 30% increase in membership. - Handled webinar connecting 120+ students with project mentors and resources that supported completion of 8 projects within 24 hours.	Jul 2020 - Aug 2021
CERTIFICATIONS	
Big Data (Dell EMC), CCNA Module 1 (Cisco), Python (Coursera), NLP in Python (Coursera), Azure AI Engineer, NDG Linux (Cisco), Complex Retrieval Queries in MySQL Workbench, Robotisss Process Automation (Coursera).
