

Ankit Kumar Sahoo

Business Analyst

ankit.s@myvitjobmails.com | (813)-419-0191 | NJ

SUMMARY:

Business Analyst with 4+ years of experience in the financial and technology sectors, specializing in the Software Development Life Cycle (SDLC) with a focus on Agile and Scrum methodologies. Skilled in creating functional requirements (FRDs), business requirements (BRDs), and system requirements specifications (SRS) to align technological solutions with business goals. Proficient in MS Project for project management and expert in data analysis tools such as MS Excel, Tableau, and Power BI for strategic decision-making through cost/benefit analysis, impact analysis, gap analysis, and risk analysis. Experienced in managing cross-functional teams, with strong problem-solving and decision-making abilities.

SKILLS:

Methodologies: SDLC, Agile/Scrum, Waterfall

Documentation: FRD, BRD, SRS

Project Management Tools: MS Project, MS Excel, MS SharePoint

Visualization Tools: Tableau, Power BI

Database: SQL

Analysis Skills: Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis

Tracking/Other Skills: Jira, Microsoft Visio, HP Quality Center, JAD, Rational ClearQuest, RTM, UAT, Confluence, Figma

Soft Skills: Time management, Leadership, Problem-solving, Negotiation, Decision-Making, Verbal communication

Operating System: Windows, Linux

EDUCATION:

Master of Science in Management Information Systems

Aug 2021 – May 2023

Stevens Institute of Technology, Business School, Hoboken, NJ

EXPERIENCE:

BlackRock, NJ | Jan 2023 - Current | Business Analyst

- Defined 50+ user stories, acceptance criteria, and sprint plans for Agile teams by conducting requirement analysis and sprint reviews, ensuring on-time Salesforce project delivery with 100% client alignment.
- Collaborated with cross-functional stakeholders by organizing workshops and detailed discussions, achieving a 20% improvement in requirement alignment and reducing rework by 15%.
- Integrated Salesforce with ERP systems by coordinating API development, testing, and deployment, enhancing order processing efficiency by 30% and reducing manual interventions by 25%.
- Conducted business process analysis using Visio to map inefficiencies and redesign workflows, increasing operational efficiency by 25% and reducing process delays.
- Developed performance dashboards and reports in JIRA and Salesforce Analytics by identifying key metrics and integrating data sources, improving project tracking efficiency by 25% and reducing decision-making time by 30%.
- Led ERP system selection and vendor evaluation by analyzing system scalability and cost-effectiveness, reducing operational costs by 15% post-implementation.
- Directed data migration efforts by ensuring data cleansing, validation, and mapping, achieving 100% data accuracy and completeness during system transitions.
- Created 20+ customized Salesforce dashboards and reports using advanced analytics, providing actionable insights that accelerated decision-making for leadership teams.

Infinite Infolab, India | Jan 2019 – Aug 2021 | Business Analyst

- Implemented Agile/Scrum methodologies by streamlining sprint planning and execution, reducing CRM enhancement project timelines by 20%.
- Automated ETL processes using Python, Pandas, and SQL by writing efficient scripts and validating data, reducing data processing time by 40% and ensuring 99% accuracy.
- Designed interactive dashboards and reports in Tableau, Power BI, and MS Excel by analyzing business needs and stakeholder requirements, increasing revenue by 25% through data-driven decisions.
- Conducted SWOT analysis of the healthcare sector using Visio and Tableau, identifying opportunities to optimize care processes, leading to a 25% improvement in patient satisfaction.
- Managed project documentation using GIT, HP Quality Center, and Test Director by organizing artifacts and aligning with regulatory standards, achieving 100% compliance.
- Streamlined data management processes by collaborating with stakeholders and ensuring adherence to regulatory requirements, improving operational efficiency by 30%.
- Trained and supported end-users on ERP, CRM, and Salesforce systems through hands-on sessions, increasing user satisfaction by 35% and reducing support tickets.
