

EDUCATION

- **New Jersey Institute of Technology** Newark, NJ
Master of Science in Data Science Expected May 2020
- **G L Bajaj Institute of Technology and Management** Noida, India
Bachelor of Technology in Computer Science June 2017

TECHNICAL SKILLS & PUBLICATION

- **Languages:** Python, R, SQL, Java
- **Big Data & Cloud:** Hadoop, MapReduce, HDFS, Oozie, AWS
- **Data Science:** Data Analysis, Web Scraping, Statistical Analysis, Data Mining, Machine Learning, NLP, XGBoost
- **Software:** RStudio, Jupyter Notebook, Git, Tableau, Minitab, Visual Studio, Eclipse, Android Studio
- **IJIRCCE:** A review paper entitled Fusion of Big Data and HealthCare: A Review Vol: 05, Issue: 5, May 2017

PROJECTS

- **Big Mart Sales Prediction [R]:** Building a predictive model to predict product-wise and store-wise sales.
- **Loan Prediction [Python]:** Built a classification model to predict whether a loan would be approved or not.
- **Twitter Sentiment Analysis [Python]:** Built a classification model to detect hate speech in tweets such as whether the tweets have positive sentiments(sexist) associated with it or negative sentiments(racist) associated.
- **PLAsTiCC Astronomical Classification - Kaggle [Python]:** Built a classification model using Machine Learning algorithms and tuned hyperparameters in python. Performed exploratory data analysis and feature engineering to find Log Loss. Secured rank: 584
- **Flight Data Analysis [AWS, Hadoop, MapReduce, Oozie]:** Performed analysis of the 22-year Airline Data using MapReduce and Oozie on AWS instances. Installed and configured Hadoop on AWS EC2 server, along with Yarn and Oozie.
- **Classification of an Individuals Income for US 1994 Census Data [Python]:** Built a predictive model using Naive Bayes Classifier in Python with an accuracy of 81%.
- **Web Crawler [R]:** Performed Data Analysis by building a simple web crawler using R to crawl, parse & extract all research papers from <https://gmb.org.br> and listed all the required information from each paper.
- **Indian Trades Analysis:** Performed analysis on the commercial activities in terms of export and import with other countries in different aspects like the analysis on basis of sectors of FDI, Paid-up Capital of Gov. & Non-Gov Companies. Installed configured Hadoop, Setup Hadoop cluster, Managed and reviewed Hadoop log files.

EXPERIENCE

- **Realbox Data Analytics Pvt. Ltd** Noida, IN
Web Development Intern Jan - Feb 2017
 - **ChatBot:** Designed and built my own distributed chat system like WhatsApp Web that allows users to communicate. Implemented Real-Time Chat functionality using Node.js with JavaScript and jQuery
- **AppsLive LLP** Noida, IN
Android Development Intern May - Aug 2016
 - **Buggy:** Developed an app which offers reliable and affordable rides on auto-rickshaw to customers.
 - Implemented Facebook, Google Login integration within an app.
 - Designed and developed multiple screens such as Splash, Profile, Home Screen of application.
 - **AIM Vision Board:** Implemented functionalities of adding images, videos, audios within the app which allows a user to set their goals and visions using them, available on Google Play Store.
 - **YoPillz:** Worked on an E-commerce app where users can sell and buy medicine.
 - Implemented a SQLite database and use JSON based APIs to fetch live data.
