Professional Experience

Data Analyst

Barclays, New Haven, CT | Mar 2025 – Present

- Monitored pricing performance equivalents through SQL/Snowflake pipelines, tracking cost changes and performance metrics, identifying outliers/discrepancies for category management and leadership.
- Oversaw financial data governance and workflows, ensuring accurate pricing execution and resolving deductions/inquiries through data validation and cross-functional coordination.

- Supported rebate-like processes by automating Excel financial models, reducing manual discrepancies by 50% and improving accuracy across client deliverables.
- Collaborated with compliance/product teams to troubleshoot data issues, manage user access equivalents, and drive continuous pricing process improvements.
- Delivered analytical insights and presentations influencing stakeholders at multiple organizational levels, supporting strategic financial decisions.

Data Analyst

Humana, New Haven, CT | May 2024 – Feb 2025

- Analyzed utilization/pricing-related metrics via SQL/Python, monitoring performance deviations and coordinating resolution with operations/sales-like Risk teams.
- Managed recurring financial reporting workflows, reviewing/validating data accuracy and supporting rebate coordination equivalents for client RFPs.
- Developed Power BI/Tableau dashboards tracking KPIs and cost changes, identifying improvement opportunities and presenting findings to leadership.
- Handled pricing inquiry equivalents through data extracts and root cause analysis, ensuring timely resolution and process compliance.
- Drove project management for report automation, cutting cycle times by 35% through cross-functional collaboration.

Data Analyst

Tata Consultancy Services (TCS), India | Jan 2021 – Jul 2023

- Monitored financial performance KPIs via integrated SQL Server/Snowflake dashboards, flagging outliers and supporting category management decisions.
- Coordinated rebate/tracking processes using Airflow-automated ETL, improving data accuracy and minimizing distributor-like errors.
- Resolved complex data discrepancies through statistical analysis in R/Python, influencing process improvements across project teams.

- Supported pricing strategy development by creating validated financial models in Excel, ensuring governance and workflow efficiency.
- Presented analytical findings to senior stakeholders, demonstrating strong business acumen and results-driven approach.

Education

Master of Science in Data Science | May 2025

University of New Haven, New Haven, CT

Bachelor of Science in Computer Science | Jun 2023

Gandhi Institute of Technology and Management, India
