Business Analyst & Data Specialist

Detail-oriented and analytical Business Analyst with 5 years of experience in interpreting business needs, developing insights, and driving strategic decisions. Seeking to transition into a Data Analyst role to leverage strong skills in data modeling, SQL, and data visualization tools to uncover actionable insights and support data-driven decision-making. Eager to apply a business-focused mindset and technical proficiency to contribute to organizational growth through meaningful data analysis.

WORK SKILLS

Business Analysis, Data Analysis, Stakeholder Management, Requirements Gathering, SQL, Jira, Confluence, Trello, Agile and Kanban Frameworks, Project Management, Analytical Thinking, Critical Thinking, Microsoft Suite (Excel, Word, SQL Server, etc.), Scrum Mastery, SDLC, Data Entry, Product Lifecycle Management, Azure DevOps, Product Management

EMPLOYMENT HISTORY

(Contract) Business Analyst, **Insight Global/Halliburton**, Houston, Texas 07/2023 – 01/2024

- Managed ServiceNow queues that handled 1300+ users across two applications.
- Helped facilitate the software development project for two applications that covered improvements, increased end user adoption rates, and overall customer satisfaction.
- Gathered requirements, created several user stories, managed the product backlog, and owned client/stakeholder relations of two applications as they moved towards a new development cycle

Artificial Intelligence Business Analyst, **Mortgage Cadence/Accenture**, Denver, Colorado 07/2022 – 04/2023

- Coordinated efforts with our Product Owner to plan out the future groundwork needed to help automate the home loan application process for various income types (W2, 1099s, Paychecks/Paystubs, etc.).
- Helped with Support related tasks and duties with the rest of the Business Analysis team.
- Assisted Product Owner with implementing new Business Process change efforts as we moved towards automation.

(Contract) Project Business Analyst, **Shell**, Houston, Texas 08/2019 - 08/2021

- Coordinated efforts across different vendors to ensure all hydrogen gas sites were operational and point of sale systems are functioning properly.
- Assisted with various ad-hoc duties around the team, including Jira administration and maintenance.
- Orchestrated the mass migration of the team's documentation materials from our proprietary repository to SharePoint.

(Contract) Scrum Master, **Fannie Mae**, Herndon, VA 07/2018 - 06/2019

- Made sure all lines of communication were readily available so that team members were always aware of any changes that may impede their progress
- Assisted my team's Project Manager with various Software Delivery Life Cycle (SDLC) deliverables such as the Agile Release Vision Statement document and the Implementation Plan
- Assisted our Systems Analyst in managing all our projects' documents from planning to implementation on our SharePoint site
