

EDUCATION

Master of Science in Healthcare Informatics May 2025
University of Wisconsin-Milwaukee, Milwaukee, WI, USA (GPA 3.78)
Bachelor of Pharmacy (B Pharm) May 2023
Vignan Pharmacy College, Guntur, Andhra Pradesh, India (GPA 3.56)

WORK EXPERIENCE

Clinical Data Analyst intern January 2025 – June 2025
G Technologies Pty Ltd, Indiana, IL

- Collected, cleaned, and preprocessed over 10,000+ clinical data points from varied sources, improving accuracy by 30%.
- Developed and implemented predictive models to identify patient trends, improving decision-making support by 25%.
- Created visual dashboards using Excel and Power BI to present clinical trial data insights to stakeholders.
- Ensured complete adherence to HIPAA/GDPR guidelines and supported audit documentation processes.

Clinical Data Analyst

Divis Laboratories, Andhra Pradesh, India November 2022- November 2023

- Conducted, developed, and validated more than five analytical methods focusing on HPLC and UV-visible spectroscopy for routine
- Conducted qualitative and quantitative analysis of over 100+ batches of raw materials and finished formulations, ensuring 99.9% compliance with pharmacopeial standards.
- Maintained documentation for regulatory audits, supported the revision of 15+ QC SOPs, and calibrated instruments for GMP compliance.
- Participated in cleaning validation and stability studies using HPLC, UV, and LOD techniques.

Validation Analyst

January 2022 – July 2022

Reddy Labs, Hyderabad, India

- Developed and implemented Installation, Operational, and Performance Qualification protocols for computerized laboratory systems and equipment, maintaining complete documentation traceability from User Requirement Specifications through final validation reporting.
 - Developed and executed **Installation, Operational, and Performance Qualification (IQ/OQ/PQ)** protocols for new laboratory equipment and software systems
 - Authored **User Requirement Specifications (URS)** and maintained full traceability through the validation lifecycle
 - Coordinated with QA, QC, and IT teams to execute validation activities within agreed timelines and regulatory expectations.
 - Monitored and documented **Critical Process Parameters (CPPs)** and **Critical Quality Attributes (CQAs)** during performance qualification runs.
 - Ensured laboratory instruments remained in a **validated state** through periodic reviews and preventive maintenance oversight.
 - Conducted **decommissioning validation** for obsolete systems, ensuring proper data archival and destruction in compliance with SOPs.
-

PROJECTS AND RESEARCH EXPERIENCE

HPLC in pharmaceutical analysis

- Developed and validated methods for quantifying active pharmaceutical ingredients using reverse-phase HPLC, ensuring system suitability and precision in analytical runs.
- Analysis of HPLC of Fingerprints
- Conducted chromatographic fingerprinting of complex herbal mixtures using gradient HPLC. Focused on reproducibility, peak purity, and qualitative compound profiling.
- Quantitative Analysis of Multicomponent by Single Marker (QAMS) of Products of Fermented Cordyceps sinensis
- Established QAMS method for the simultaneous estimation of multiple bioactive constituents using one reference standard. Ensured method accuracy through recovery and linearity studies.

HPLC Method Validation of Tetrahydro curcumin in Bulk Drug and Formulation

- Performed full ICH Q2(R1) validation: specificity, precision, linearity, accuracy, robustness. Applied validated method to stability testing and formulation batch analysis.
- Formulation and Optimization of Pioglitazone Hydrochloride Bilayer Tablet with Factorial Design.
- Utilized HPLC and UV-Vis for drug content analysis and dissolution profiling. Employed Design of Experiments (DoE) to optimize polymer concentrations for sustained and immediate-release layers.

SKILLS

Analytical Techniques: HPLC, Ion & Gas Chromatography, UV-Vis, Ultra Scan Pro, Dissolution, Karl Fischer, LOD, Stability Testing

Clinical Operations: SOPs, Study Protocols, GCP, ICH-GCP, Patient Recruitment, Trial Design, Validation, Audits, ADR Reporting, Patient Education

Quality Standards: ISO 14155, 13485, 14971, ICH Q9/E8/E2/E6, CAPA, HIPAA, RCA, QA

Data Management: EDC, eTMF, Monitoring, Data Collection/Analysis, GraphPad Prism

Software: MS Office, SharePoint, Google Workspace, Freezer Pro, CTMS, QMS, ELN, eCTD

Soft Skills: Communication, Teamwork, Detail-Oriented, Critical Thinking, Problem Solving, Time & Project Management

Healthcare IT: FHIR, HL7, SNOMED, ICD-10, HIPAA, HITECH
