WORK EXPERIENCE

Marketing Data Analyst & Automation– Intero Digital, Denver, CO (Remote) May 2025 – Present

- Led automation projects using Clay, Prompt Engineering and integrated CMS tools to streamline campaign execution and reduce manual workloads.
- Conducted QA testing and documentation for automated workflows, increasing system reliability by 25%.
- Collaborated across marketing and engineering teams to deliver insights and track performance KPIs through internal dashboards.
- Maintained SOPs, versioned documentation, and QA logs to support audit readiness and operational transparency.

Data & Business Analyst Intern– CTDI, West Chester, PA May 2024 – Aug 2024

- Enhanced internal dashboards with five new analytics features to improve visibility across operations teams.
- Built a CSV export tool using LINQ and C#, improving access to data with error-free processing of 3,000+ records/day.
- Documented and automated SOPs for dashboard refreshes, reducing manual intervention and data lag by 30%.
- Supported Agile sprints with data analysis that identified root causes of system downtime and guided fixes.

Financial Data Analyst– West Chester University Dining, West Chester, PA Jan 2024 – May 2024

- Analyzed revenue, cost, and inventory data using ERP tools and Excel to support budget forecasts and resource planning.
- Developed variance reports and staffing forecasts that informed daily operations and improved profit margins.
- Partnered with operations to reduce waste and optimize inventory through data-backed recommendations.
- Improved operational decision-making by forecasting student attendance, daily staffing needs, and meal plan sales.

Business Systems Analyst– Green Circle Technology, Mehsana, GJ Jan 2022 – June 2022

- Designed and implemented internal tools including a secure UPI payment gateway and custom data service APIs to improve transaction processing and system integration.
- Managed end-to-end project lifecycle: gathered business requirements, translated them into technical specs, led development using Angular and ASP.NET, and executed QA and UAT.
- Built authentication systems and data access protocols that improved security compliance by 30%.
- Maintained detailed, version-controlled documentation and SOPs to support change management, stakeholder training, and audit readiness.

SKILLS

Tools: Excel, SQL, Oracle, PostgreSQL, Power BI, JupyterLite, ERP, Clay API Integrations, WordPress, Monday.com

Languages: Python, C#, JavaScript, SQL, Prompt Engineering

Frameworks: ASP.NET Core, Angular, MudBlazor, LINQ

Soft Skills: Detail Oriented, Strong Written/Verbal Communication, Cross-Functional Collaboration, Agile Collaboration

Regulatory & Documentation: SOP Compliance, Quality Assurance (QA), Version Control

EDUCATION

West Chester University of Pennsylvania, M.S. in Computer Science

Jan 2023 – Dec 2024

- GPA: 3.85

Ganpat University, Gujarat, India, B.E. in Computer Engineering

Jun 2018 – Jun 2022

- GPA: 3.58

Additional Information

- Authorized to work in the United States
- Open to relocation nationwide
