

Anuja Sheta

CA, USA | +1 9097146396 | shetaanujacal@gmail.com | LinkedIn

Summary

- Data Analyst with 4+ years of experience in analyzing large datasets, building data pipelines, automating reporting, and delivering insights to support business, financial, and operational strategies.
- Strong expertise in SQL, Python, Tableau, Power BI, and Snowflake with proven ability to handle ETL, financial reporting, and forecasting models.
- Hands-on experience with AWS, Azure, and Databricks to manage data warehouses, optimize performance, and deploy pipelines.
- Adept at data visualization, statistical modeling, and business/financial analysis to enable strategic decision-making.
- Skilled in collaborating with cross-functional teams, stakeholders, and leadership to transform raw data into actionable insights.

Skills

Methodologies: SDLC, Agile, Waterfall

Languages: Python, R, SQL, SAS, PySpark

Machine Learning & Statistics: Regression (Linear, Logistic), Classification, Random Forest, KNN, Hypothesis Testing, Time Series Forecasting, Variance Analysis

Cloud & Data Engineering: AWS (S3, Redshift, Glue, Lambda, Glacier), Azure (Data Lake, Databricks, Data Factory, DevOps), Snowflake, Apache Spark, Hadoop, Kafka, MS Office

ETL & Data Warehousing: SQL Server Integration Services (SSIS), SAP BW, Airflow, Data Modeling (Star/Snowflake schema), Data Wrangling, Data Quality, Financial Data Pipelines

Visualization & Reporting: Tableau, Power BI, Alteryx, Advanced Excel (PivotTables, VBA, Scenario Analysis, DCF Modeling)

Databases: MS SQL Server, Oracle, MySQL, PostgreSQL

Finance & Business Tools: Budgeting & Forecasting, P&L Analysis, Financial Ratios, Cash Flow Reporting, Expense & Revenue Tracking, Salesforce CRM

Other Skills: CI/CD pipelines (Git, Jenkins, Docker), Presenting to technical & non-technical audience

Experience

McKesson, CA | Data Analyst May 2024 – Present

- Collected and integrated data from multiple sources using SQL, Python, and ETL workflows, ensuring accuracy and consistency across enterprise systems.
- Improved operational efficiency by 8% through automation of reporting dashboards and real-time Tableau insights.
- Migrated on-premises data to AWS S3 Glacier, reducing storage cost and improving retrieval efficiency by 20%.
- Built scalable data pipelines in Snowflake and Databricks to support both analytical and financial reporting requirements.
- Automated daily liquidity and financial reports using Python and Tableau, eliminating 2 hours/day of manual effort.
- Partnered with finance teams to deliver variance analysis and budget tracking dashboards, supporting executive decision-making.
- Developed and deployed 8+ Lambda functions to automate data cleaning, transformation, and financial reconciliation processes.
- Implemented data quality checks to improve accuracy by 23%, ensuring reliability for financial and operational analysis.

Cigna, CA | Data Analyst Jan 2021 – Apr 2024

- Designed interactive Power BI dashboards for 80+ stakeholders, enabling real-time visibility into operational and financial KPIs.
- Accelerated data exploration by 33% using Python visualization libraries (Matplotlib, Seaborn), uncovering patterns in cost and claims datasets.
- Scaled AWS Redshift infrastructure to handle 50% higher data volume, ensuring uninterrupted data processing.
- Built ETL pipelines with SSIS to load 200TB of structured/unstructured data into a data warehouse, improving reporting accuracy.
- Collaborated with finance teams to design forecasting models and scenario-based reports, strengthening strategic planning.
- Executed query optimization and performance tuning on Snowflake, leading to 30% faster insights and reduced reporting delays.
- Developed data models for financial and risk reporting, improving accuracy of cash flow and revenue predictions.

Education

M.S. Information Technology | **California Baptist University**, Riverside, CA

Bachelor of Commerce | **Gujarat University**, India

Certifications

- Salesforce Certified Platform Developer I
- Salesforce Certified Administrator
- Excel: Managing and Analyzing Data
