PROFESSIONAL SUMMARY

Operations professional with strong operational expertise in supporting portfolio value creation through end-to-end process improvements. Skilled at driving cross-functional collaboration to deliver scalable solutions that improve financial accuracy, reduce manual workloads, and enable faster, data-backed decision-making

WORK & LEADERSHIP EXPERIENCE

TENEX CAPITAL MANAGEMENT

Multiple Locations

Private Equity Operations Associate

06/2023 - 01/2025

- Participated in a rigorous rotational development program, where participants co-locate at different portfolio companies to work directly alongside C-suite executives and private equity leadership to implement key operational initiatives

FP&A Rotation

Chicago, IL

- Designed and implemented an individual goal-based bonus system by developing 45 new KPIs to track, tying 10% of employee bonus compensation directly to strategic priorities, and driving stronger alignment with organizational targets
- Restructured senior leadership meetings by implementing targeted summary dashboards, which were automated through Power BI, reducing meeting time by over 60% while improving strategic focus and decision clarity

Business Analyst

Chicago, IL

- Designed KPI to track for the procurement department within the firm's portfolio companies, which specialize in commercial asphalt & parking lot maintenance to negotiate vendor costs.
- Utilized Excel and SQL within Snowflake to query and analyze pricing data from a 300+ subcontractor network, uncovering \$1.4M in cost-saving opportunities and driving procurement standardization.
- Designed and managed the start-to-finish of a bid approval process within the sales software, optimizing margin consistency by 60% and enabling effective cost savings retention

Operations Associate

Erie, PA

- Utilized Lean Six Sigma to map and define all bottlenecks within the snack pie manufacturing facility
- Targeted a key bottleneck and developed the strategy to reduce overall snack pie filling by 1 gram/pie, leading to YoY savings of \$500k and overall waste reduction through Excel modeling.
- Optimized a 560,000 sqft greenfield facility through the 5S process, leading to an accelerated opening day and creation of new jobs within the greater Wichita area

L'Oreal

New York, NY

E-commerce Sales Intern

06/2022 - 08/2022

- Developed a prototype tool automating promotional data collection and streamlining internal processes such as tracking Amazon-led price changes to competitively respond with internal pricing.
- Improved sales data accuracy and strategic decisions in collaboration with directors and analysts
- Spearheaded digital marketing initiatives, driving substantial e-commerce growth

EDUCATION

Georgia Institute of Technology

Atlanta, GA

Bachelor of Science in Business Administration

08/2019 - 05/2023

- Summa Cum Laude
- GPA: 3.7
