Email: anusha86atkuri@gmail.com | **Location:** Austin, Texas | **Mobile:** +1 (205) 225-1444

Experienced Data Analyst with 6 years of expertise in data analysis, reporting, and visualization, specializing in transforming raw data into actionable business insights. Proficient in **SQL, Python, Tableau, and Power BI**, with a strong background in **automating data validation, optimizing SQL queries, and developing interactive dashboards** that drive strategic decision-making.

Recently completed a **master's in information technology management** from Webster University, with coursework in **Data Management, Business Intelligence, IT Strategy, Database Design, and Data Analytics**.

Proven ability to **lead end-to-end data analysis projects, conduct root-cause analysis, and collaborate with cross-functional teams** to enhance operational efficiency. Adept at **mentoring junior analysts, streamlining reporting processes, and implementing process automation**, resulting in measurable performance improvements. Passionate about leveraging data-driven insights to support business growth and innovation.

PROFESSIONAL EXPERIENCE

Senior Data Analyst Cognizant Technology Solutions, India

2019 – 2022

- Led end-to-end data analysis projects, providing actionable insights that improved website usability and operational efficiency by 20%.
- Automated data validation for the SO Tracking Tool Application, reducing manual efforts by 40% and ensuring 99% data accuracy.
- Developed and optimized SQL queries and stored procedures, improving query performance by 35%, leading to faster data retrieval for reporting.
- Designed interactive dashboards in Power BI to track key performance indicators, reducing reporting time from 4 hours to 30 minutes.
- Conducted root-cause analysis on system performance issues, identifying bottlenecks and implementing fixes that enhanced application response times by 25%.
- Collaborated with DevOps and engineering teams to streamline web application development, improving deployment efficiency and reducing downtime.
- Presented data-driven recommendations to product managers, leading to 15% improvement in user engagement metrics.
- Led a team of 3 junior analysts, providing mentorship and training on SQL, data visualization best practices, and analytical methodologies.
- Conducted A/B testing and statistical analysis to evaluate product enhancements, driving data-backed business decisions.

Data Analyst Cognizant Technology Solution, India**2016-2019**

- Ran emulation to develop websites, provide analytical assessments on usability and enable operational capabilities.
- Actively collaborated with product management and engineering teams in improving product quality.
- Created Individual daily status Reports on the Development results.
- Automated Data validations for SO Tracking tool Application development, reducing manual effort.
- Developed many Charts with logical and effective effects using MVC.
- Involved in Script and developed tooltip with content and header using string builder.
- Creation and deployment of DB Scripts.
- completed Project analysis for multiple client requests and presented Database requirements for the development team.
- Collaborated with DevOps in Web application development.

TECHNICAL SKILLS

Programming Languages	Python, SQL, HTML
Data Analysis Tools	Excel (Advanced), Google Analytics
Databases	MS SQL Server
Data Visualization	Tableau, Power BI, Qlik sense, Qlik view
Machine Learning	Scikit-learn, TensorFlow (Basic)
Other Tools & Technologies	Git, Jupyter Notebooks
Scripting Languages	: JavaScript
Framework	ASP .Net Framework

ACADEMICS

- I completed my master's in information technology management from Webster University in 2024 December with GPA 3.97.
- B. Tech Electronics and Communication from K.L. University, Vijayawada with an aggregate of 78%.
-

CERTIFICATIONS & TRAINING

- Google Data Analytics Professional Certificate
- AWS Certified Data Analytics
