SUMMARY

Results-driven **Data Analyst** with over 3 years of experience in data analytics, reporting, and data modeling. Proficient in **SQL, Python, Power BI, and Tableau** with a solid background in **data validation, ETL** processes, and **data visualization**. Skilled in delivering actionable insights for business stakeholders by automating reporting workflows, streamlining data analysis, and improving data-driven decision-making. Strong communicator with experience in collaborating across cross-functional teams to align product goals with business needs.

SKILLS & OTHER

- Programming Languages:** Python, SQL, Shell Scripting, JavaScript, C
- Data Analytics & Visualization:** Power BI, Tableau, Google Analytics, MicroStrategy, DAX, Alteryx
- Data Engineering:** AWS Glue, Apache Airflow, dbt, Snowflake, Redshift, Apache Kafka
- Machine Learning & AI:** TensorFlow, scikit-learn, PyTorch, XGBoost, MLflow, AWS SageMaker
- ETL Tools:** Apache NiFi, Sqoop, AWS Lambda, Jenkins, GitLab, Power Automate
- Cloud Platforms:** AWS, Azure, Google Cloud Platform (GCP)
- CI/CD & DevOps:** Jenkins, GitHub Actions, Terraform, Docker, Kubernetes, Azure DevOps
- Agile Tools:** Jira, Confluence, TargetProcess, Smartsheet, Scrum
- APIs & Integrations:** REST APIs, JSON, OAuth 2.0, API Integration
- Data Compliance:** SOC-2, GDPR, HIPAA, Basel III compliance
- Data Quality:** Data Validation, Data Profiling, Automated Reporting, Data Governance

PROFESSIONAL EXPERIENCE

Dell Technologies

Jul 2022 – Aug 2023

Data Analyst

India

- Developed and deployed interactive dashboards using **Power BI** and **Tableau** to visualize **sales metrics, SLA performance**, and improving **decision-making** by 30%.
- Built data models using **SQL** and **Power BI**, enabling **automated reporting** and reducing manual data entry by 45%.
- Conducted **data profiling and validation** tasks using **Python** and **SQL**, improving data accuracy for business-critical dashboards and providing reliable insights for seniors.
- Created real-time dashboards and reporting mechanisms using **Power Automate** and **Tableau**, reducing reporting time and improving data accessibility for stakeholders.
- Collaborated with business **teams** to define **data requirements** and translate them into actionable insights, aligning reporting workflows with business goals.
- Automated data validation workflows using **Python** and **SQL**, reducing manual errors and improving pipeline efficiency.
- Documented data models, reporting workflows, and **ETL processes** in **Confluence**, improving team collaboration and knowledge sharing.
- Provided training and support for team members on best practices for **data analysis** and **reporting tools**, increasing team productivity by 25%.
- Optimized **SQL queries** and **data structures** for faster report generation, improving data retrieval times by 30%.
- Worked with senior leadership to ensure **data models** aligned with **business objectives** and **compliance standards**.

KPMG

Dec 2021 – Jul 2022

ML-Data Analyst

India

- Developed predictive models using **TensorFlow** and **scikit-learn**, supporting **predictive analytics** use cases and improving **model accuracy** by 20%.
- Led **data transformation** efforts using **Pandas**, improving data quality by 30% and ensuring consistency across reporting systems.
- Created and deployed **Tableau dashboards** to visualize **model performance** and **business outcomes**, supporting **data-driven decision-making** across business units.
- Conducted **exploratory data analysis (EDA)** to identify key features and trends, improving model performance and supporting future business initiatives.
- Collaborated in agile sprints with **data scientists** and **business stakeholders**, iterating on models to improve product features and deliver insights for operations.
- Tracked KPIs** using **SQL queries**, ensuring **model effectiveness** and aligning analytics results with business goals.
- Documented model performance, metrics, and validation processes**, ensuring transparency and compliance with internal standards.

ADANI

May 2020 – Dec 2021

Data Analyst Intern

India

- Built **SQL-based ingestion pipelines** for data integration from **SQL Server** and **Oracle** into data platforms, streamlining data flow and ensuring consistency.
- Developed **Power BI and Tableau dashboards** to monitor **audit performance**, identify **financial anomalies**, and support compliance tracking.
- Conducted **financial trend analysis** and **ratio calculations** using **Python**, feeding insights into compliance dashboards for reporting.
- Modelled **data structures** in **Snowflake**, improving data query efficiency and ensuring consistent reporting metrics.
- Performed **root cause analysis** of audit anomalies and generated **reports** to ensure **regulatory compliance**.
- Automated **data validation** workflows using **SQL** and **Confluence**, ensuring the accuracy of incoming data and improving reporting workflows.
- Integrated **external data sources** for improved predictive analytics and compliance tracking.

PROJECTS

Missing Child Identification System – Python, OpenCV, TensorFlow, ResNet50

- Built a CNN-based model achieving 90%+ accuracy in detecting missing children using 5,000+ processed images.
- Enabled real-time image ingestion from CCTV and external uploads with law enforcement integration.

Allstate Business Insurance Expert Chatbot (ABIE) – NLP, Dialogflow, JSON

- Transformed 10,000+ DITA XML topics into optimized JSON for real-time chatbot use.
- Implemented tracking dashboards and metadata enrichment workflows for performance enhancement.

EDUCATION

University of North Texas, TX

Aug 2023 – May 2025

Master of Science in Computer Science and Engineering

MVSR Engineering College, India

Jul 2018 – May 2022

Bachelor of Engineering in Information Technology

CERTIFICATION

AWS Cloud Practitioner

Jan 2025

Microsoft Technical Associate - Python

May 2021
