EDUCATION

New York University Tandon School of Engineering and Stern School of Business <i>Bachelor of Science in Business and Technology Management and Biomolecular Science</i> GPA - 3.792	New York, NY 2022 - 2026
--	-----------------------------

EXPERIENCE

NYU Research Assistant and Course Assistant to Professor Allan B. Goldstein - NYU Tandon Department of Technology, Culture and Society - Course: Disability Studies	May 2024 - Present
- Work with disabled consultants to seamlessly integrate ADA-compliant content to the NYUStream website. - Tagged and uploaded films with relevant metadata, including partner day-programs, interview style, topic and class year - enhancing searchability and user experience. Transferred approved films maintaining quality and accuracy.	
UCB Biopharma Health AI Integrated Insights Intern - <i>Atlanta, Georgia</i>	May - August 2025
- Direct report to the Global Head of Insights Excellence handling IT Project Market Research/Supply Chain Management. - AI Integration for Pharmaceutical Market Research / Knowledge Management (testing data quality, accuracy, and integrity). - Working with DeepSights - a custom software by Market Logic to drive business insights, and created and presented PowerBI dashboards. DeepSights featured at IIEEX Europe in June 2025, during my internship. - Created and updated KPIs for company-wide Global Market Research Compliance and Regulatory frameworks. Compliance Documentation, Adverse Event Reporting Micro Focus QALM for Quality Testing / QC - Please find my final presentation and final paper linked.	
PwC - Digital Transformation Intern (Nonprofit Consulting) - <i>New York City, New York</i>	June - September 2024
- Applied consulting frameworks to fundraising issues, leading to a 25% increase in operational efficiency. - Was 1/6 selected to give a presentation on my financial strategy recommendations to the whole cohort of 60. - Delivered data-driven presentations with actionable recommendations, achieving a 95% satisfaction rate from partnering organizations (NYC Counseling in Schools) - Mentored by Ms. Julymar Andino of PwC DAT (Digital Assurance and Transparency) and Ms. Kaitlyn Cardon (CPA)	

CERTIFICATIONS

McKinsey Forward Program	October - December 2025
- Analyzed and visualized datasets using Excel, Tableau, and Power BI, generating insights for 5 simulated client projects that improved recommendation accuracy by 20% - Led cross-functional teams of 4-6 peers using Miro, Trello, and MS Teams, delivering solutions 2 weeks ahead of schedule while maintaining high-quality outputs - Applied AI, automation, and agile design methods to prototype 3 business solutions, increasing workflow efficiency by 25% and enhancing feasibility for implementation	
Biology Meets Programming: Bioinformatics for Beginners by UC San Diego	January 2023
- Performed DNA sequencing in Python using introductory Bioinformatics Algorithms. - Topics covered : Profile matrix + consensus string computation RNA string translation k-mer analysis probability normalization	
Introduction to Quantum Computing (Qubit x Qubit by IBM and The Coding School)	April 2022
- Under the mentorship of Professor Clarice Aiello at UCLA's Quantum Biology Tech (QuBiT) lab - Quantum spin's effects metabolic regulation in cells (with special emphasis on the human mitochondria) - Topics covered : Quantum Mechanics Coding in Qiskit Quantum protocols and algorithms	

ADDITIONAL PROJECTS

Student President of the Blockchain Lab at NYU under Prof. Ayesha Kiani	September 2024-May 2025
- Previously, the Head of Socials and Events promoting events to a MailChimp list of 1000 and a LinkedIn following of 200+. - Conduct weekly meetings using Tableau Data Visualization software to drive online engagement and following. - Plan and set-up events focused on Blockchain technology - hackathon prep, company outreach (ORA, Foundation.App), collaborate frequently with Cornell and Columbia Blockchain Groups.	
Chief Technology Officer at The Indeplant by Plantech : New York University	September-December 2022
- This student project combines my interest in biology and technology for a Rapid Assembly Design (RAD) project at NYU's Introduction to Engineering Course. (EG-1004) - Prof. Ingrid Paredes and Prof. Victoria Bill. - Automated the motor and lighting systems using C++ coding language in the Arduino IDE. Used AutoCAD to build mockups and technical views (front, side, cross sectional). - Indeplant 'The Independent Planting Solution' Demo Video - Indeplant Final Demo Video.MP4	

SKILLS

Python | SQL | C++ | Microsoft Office (Excel, PowerPoint, Outlook, CoPilot AI) | Google Suite (including Gemini AI)
| Tableau | Blockchain Fundamentals | PowerBI | Micro Focus QALM | Market Logic Software | Bloomberg | SAP ERP |
