

ANUSHKA CHOUGULE

Fairfax, VA | (571)-635-0748 | anushkachougule96@gmail.com | [LinkedIn](#)

Experience

Customerinsights.ai | *AI Intern*

July 2025 - Present

- Reduced pipeline downtime by 40% by resolving critical errors in ciAthena's agentic AI workflows, ensuring uninterrupted execution across data science projects.
- Automated ingestion from 5+ external data systems using Airbyte, eliminating manual ETL and enabling scalable analytics.
- Enhanced workflow orchestration using LangGraph, LangChain, and FastAPI, improving adaptability and reducing execution time for real-time data processing.

Puerto Rico Science, Technology and Research Trust | *Geospatial Data Scientist*

Jan 2025 - May 2025

- Built a scalable Socioeconomic Vulnerability Index for 78 municipalities using 25+ features, guiding disaster funding and resilience planning.
- Delivered Tableau/QGIS/Python dashboards that reduced risk assessment turnaround by 30% and were adopted by policymakers.
- Translated geospatial + statistical analysis into data-driven, actionable policy insights, significantly influencing allocation of resources across coastal regions.

University of Pune | *AI Research Intern*

Aug 2022 - May 2023

- Deployed an AI chatbot handling 10K+ queries with 85% accuracy, reducing escalation rates by 25%.
- Reduced misclassification by 20% through error analysis and model tuning, improving robustness.
- Designed monitoring scripts that cut latency by 35%, improving stability in real-time applications.

Projects

Sales Insights | *Power BI, MySQL, Data Cleaning, Data Visualization*

Dec 2024 - Jan 2025

- Analyzed \$11.87M sales across 6 cities, uncovering profitability gaps (Delhi NCR: 2.3%, Bhubaneswar: 10.5%) that drove regional pricing adjustments.
- Built interactive dashboards and optimized refresh pipelines, cutting refresh time by 50% and enabling executives to access near real-time KPIs.

Sentiment-Driven Cryptocurrency Trading | *Python, NLP, Time Series Analysis, Model Fine-Tuning*

Sep 2024 - Nov 2024

- Fine-tuned FinBERT model achieving 98.5% precision in financial text classification; built a trading agent that delivered 69.7% return and 2.67 Sharpe Ratio on a \$10K backtest.
- Automated end-to-end pipeline (data ingestion → feature extraction → model inference → execution), enabling real-time trading decisions.

Predictive Analysis | *R, Linear Regression, Statistical Modeling*

Sep 2023 - Oct 2023

- Developed regression models predicting sleep efficiency (87% R^2) using REM cycles and caffeine intake as key predictors.
- Reduced prediction error by 15% through feature engineering and data cleaning, providing reliable insights for personalized health recommendations.

Education

George Mason University

Aug 2023 - May 2025

Master's in Data Analytics Engineering

GPA: 3.67

Savitribai Phule Pune University

Aug 2019 - May 2023

B.Eng Electronics and Telecommunications

GPA: 3.04

Technical Skills

Programming & ML: Python (Pandas, NumPy, Scikit-learn), R, SQL, C++, PL/SQL, NLP, Regression, Classification, Clustering, Time-Series Forecasting, Predictive Modeling, Feature Engineering

Data Engineering & Cloud: AWS, Azure, Databricks, Airbyte, FastAPI, PySpark, Hadoop, Snowflake, ETL Pipelines, Data Warehousing

Visualization & BI: Tableau, Power BI, QGIS, Matplotlib, Seaborn, Statistical Dashboards

Tools & Practices: Git, Jira, Excel, Agile, A/B Testing, Statistical Analysis, Data Wrangling, Model Deployment

Extracurricular and Certifications

Quantum Job Simulation on Forage | *Storytelling, Statistical Analysis*

Nov 2024 - Jan 2025

- Processed 1.2M+ transactions with Python/SQL, ran A/B tests (12% uplift), delivered BI dashboards for inventory planning.
- Applied statistical storytelling techniques to highlight key drivers of uplift, strengthening decision-making for category managers.
