

# ANUSHKA LAHANE

Binghamton, New York | (607) 232-3649 | [anushkalahane2025@gmail.com](mailto:anushkalahane2025@gmail.com) | [LinkedIn](#)

## PROFESSIONAL SUMMARY

Motivated and detail-oriented Data Analyst with a strong foundation in SQL, data mapping, and validation. Experienced in transforming raw data into actionable insights and supporting high-level decision-making through accurate and timely reporting. Quick to adapt in fast-paced, ambiguous environments with a proactive mindset and eagerness to learn new tools like Databricks. Strong communicator with a passion for building scalable data pipelines and delivering executive-ready reports. Adept at collaborating across teams to ensure data accuracy, structure, and business relevance

## EDUCATION

**SUNY Binghamton University**, Thomas J. Watson College of Engineering and Applied Science, New York  
Master of Science in Computer Science

August 2023 - May 2025

**Mumbai University**, Mumbai, Maharashtra  
Bachelor of Engineering in Computer Engineering

August 2020 - May 2023

**Relevant Coursework** : Data Structures & Algorithms, Operating Systems, Distributed Systems, Programming Languages, Design Patterns, Database Management Systems, Data Mining, Artificial Intelligence

## TECHNICAL SKILLS

**Data & Forecasting Tools**: Excel, Pandas, SQL, NumPy, Power BI, Tableau

**Programming Languages**: Python, Java, Scala, JavaScript, C++

**Inventory & Backend Systems**: REST APIs, Distributed Systems, System Design, OOP

**Cloud & Infrastructure**: AWS (EC2, S3, IAM), Docker, GitHub Actions, Terraform

**Databases**: PostgreSQL, MySQL, MongoDB

**Soft Skills**: Analytical Thinking, Detail Orientation, Planning, Decision Making, Communication, Ambiguity Handling, Vendor Relationship

**Certifications**: Google Cloud Program, Data Analytics, Google Professional UX Design, DevOps Foundations

## PROFESSIONAL EXPERIENCE

**Software Developer Intern | Peekar AI**, Remote (USA)

September 2024 - December 2024

- Designed modular site features that supported real-time insights for product usage and customer feedback
- Enabled live enrichment tools improving dashboard responsiveness using clean API integration and AWS scaling
- Analyzed user data trends to identify peak usage hours, enhancing data visualization and uptime planning

**Software Developer Intern | Vijaya Enterprises**, Mumbai, India

April 2021 - December 2021

- Refactored backend using Python and C#, improving uptime and reducing server latency
- Developed secure, scalable modules with MySQL and RESTful APIs for production systems
- Automated deployments and testing using Linux, Git, and custom Bash scripts

**IT and Network Intern | Digicable Network India Pvt Ltd**, Mumbai, India

February 2019 - June 2019

- Enhanced data accuracy by designing SQL-driven templates for inventory reporting and network audit
- Built automated scripts for customer data validation and cable distribution analytics
- Managed and improved inventory logs using Excel formulas, charts, and distribution KPIs

## PROJECT EXPERIENCE

**Inventory Utilization Dashboard (Binghamton University)**

November 2024 - February 2025

- Created dashboard for tracking real-time bus seat availability and route demand
- Applied clustering on route data to classify underutilized vs. overcrowded routes
- Automated alerts for overcapacity scenarios using predefined bus thresholds
- Enhanced daily usage data visibility for administrators and improved planning

**Supply Chain Optimization using Graph Theory**

January 2024 - April 2024

- Modeled warehouse-to-store delivery using weighted graphs and shortest path algorithms
- Analyzed transportation costs vs. delivery times using networkX and pandas
- Integrated results with a dashboard showing bottlenecks in distribution routes
- Improved delivery time predictions by 25% in simulation testing

**Vendor Lead Time Estimator**

December 2023 - March 2024

- Analyzed historical vendor lead times to forecast expected delivery dates using regression models
- Created reports showing lead time reliability and seasonality patterns
- Integrated lead time visuals into a Flask-based dashboard for managers
- Improved vendor communication strategy by quantifying consistency metrics

## RESEARCH AND RECOGNITION

**Malware Detection & Classification using Deep Learning** | Technical Paper Presenter, India

February 2023 - April 2023

- Presented a technical paper at the *International Conference on Recent Trends in Multidisciplinary Research and Innovation (ICRTMRI-23)*

**IEEE (Institute of Electrical and Electronics Engineers)** | Student Member, Mumbai University

September 2021 - September 2023

- Engaged in networking with industry professionals and contributed to technical research publications

**Award of Excellence** | International Yoga Competition, India

June 2021

- Received the Award for outstanding performance in the International Yoga Competition, featuring participants from over 18 countries

**National Record Holder** | Mumbai, India

May 2021

- National Record Holder in the *India Book of Records* for holding the *Karnapidasana* yoga posture for the longest duration
