Data Analyst with 5+ years of experience in data analysis and business analysis across Telecom, Legal, Healthcare, and Marketing sectors. Developed SQL and Python solutions to automate reports and streamline pipelines. Improved data accuracy by 35% and reduced manual effort by 40% through workflow optimization.

TECHNICAL SKILLS

Data Visualization & BI Tools: Power BI, Tableau, Excel, Power Query, DAX

Data Engineering & ETL: Modeling, Cleaning, Integration, Standardization, Azure Data Factory, Data Warehousing

Programming & Scripting: Python, PySpark, SQL, Jupyter Notebook, Shell Scripting, Pandas, NumPy, Matplotlib

Cloud Platforms: AWS, Azure, GCP

Databases: MySQL, Oracle, PostgreSQL, Microsoft SQL Server, Amazon Redshift, Snowflake

Tools & Methodologies: Agile/Scrum, GitHub, JIRA, ServiceNow, Confluence

WORK EXPERIENCE

INNOVATIVE DEVELOPMENT LLC, *Data Analyst*

December 2022 – January 2025

- Spearheaded the design and implementation of 5+ Power BI dashboards using DAX and ETL pipelines for compliance, legal hold, and data volume analysis, enhancing strategic visibility for a pharmaceutical client.
- Discovered and flagged inactive users not under legal hold using Python on AWS S3, eliminating redundant data and reducing storage by 25% across 2,491 TB of legal files.
- Collaborated with cross-functional teams to engineer scalable data models, reducing reporting latency by 50%.
- Established comprehensive data documentation encompassing data models, KPI definitions, and dashboard specifications, streamlining reporting processes across analytics and business teams by 30%.
- Automated high-effort manual tasks using Python, saving over 100 hours weekly and increasing team productivity.
- Performed ad-hoc analysis using SQL and Python, delivering insights that improved decision speed by 20%.

ERICSSON, *Data and Operations Engineer*

October 2017 – July 2022

- Designed and delivered an ITSM dashboard in Power BI for SLA tracking, achieving 100% SLA compliance for Veon.
- Led Azure Data Factory pipelines, improving telecom order reporting accuracy by 35% and reducing delays.
- Diagnosed recurring issue trends via deep dive analytics, boosting resolution turnaround by 30%.
- Drove data validation and UAT support efforts, guaranteeing system reliability and data integrity by implementing automated testing frameworks, which reduced testing time by 40% and improved data accuracy.
- Developed a Python-based SAP ticketing system, reducing processing time by 92% and eliminating manual handling.

PROJECTS

CMO Dashboard for Enterprise B2B SaaS Marketing Team: Power BI, DAX, SQL, Salesforce CRM

- Engineered a Power BI dashboard for a B2B SaaS marketing team, using SQL to track conversion rates, MQLs, SQLs, and pipeline health; dashboard visualized 35% YoY marketing pipeline growth, enabling data-driven decisions.

AtliQ Grand – Hospitality Domain Analysis: Python, Pandas, Matplotlib, Excel

- Performed exploratory data analysis using Python, Pandas, and Matplotlib to uncover occupancy and revenue trends, resulting in a 12% boost in efficiency, 15% increase in occupancy, and 8% growth in revenue.

PwC Switzerland Virtual Internship: Power BI, Excel

- Implemented three Power BI dashboards for HR KPI trends, call center agent performance, and churn analysis to deliver actionable business insights across domains.

Business Insights 360 Dashboard: Power BI, MySQL, Excel, DAX, Power Query

- Designed and implemented a multi-departmental Power BI dashboard providing actionable intelligence to Sales, Finance, Supply Chain, Marketing, and Executive teams, enabling a 25% improvement in data-driven decision-making.

EDUCATION & CERTIFICATIONS

- Bachelor of Technology in Electrical and Electronics Engineering
Amrita Vishwa Vidyapeetham · 2013 – 2017
- Microsoft Certified: Power BI Data Analyst Associate

ACHIEVEMENTS

- Recognized with IMPACT Award (2x) at Ericsson for leading automation initiatives across high-impact projects.
