

Arijit Guchhait

Greater Boston | H1b Visa Holder
+18132158804 | ari.guchhait@gmail.com |
WWW: <https://github.com/aguchhait-stack>

Industrial Engineer with experience in portfolio analytics, production planning, and supplier qualification. Skilled in manufacturing documentation, NPI support, and data-driven process improvement.

Skills

- **Manufacturing & Logistics:** Warehouse Layouts, Material Flow Analysis, Line-side Planning, NPI, PFMEA, MRP (SAP, CoPeck, CLIX)
- **Analytics & Tools:** SQL, Python (Pandas, Scikit-learn), Power BI, Tableau, Advanced Excel (Pivot Tables, VBA), AutoCAD (exposure), Simulation Tools (basic)
- **Process Improvement:** Lean Principles, Workflow Optimization, Risk Assessment
- **Collaboration & Leadership:** Cross-functional Teamwork (Supply Chain, Quality, Design, Procurement), Supplier Audits, FAI/PPAP Support, Training & Shop-Floor Engagement

Work History

Portfolio Data Analyst

J&J MedTech, Boston, USA

May 2022 - March 2025

- Managed **production discontinuation planning** by coordinating with product leads and supply chain teams to ensure smooth phase-out of discontinued SKUs.
- Conducted **sales and demand analytics** to align production discontinuation with inventory levels, minimizing excess stock and avoiding shortages.
- Assisted with **extensive Excel-based analytics** (pivot tables, advanced formulas, VBA) to track product availability, demand fluctuations, and supply risks.
- Maintained and updated **manufacturing dashboards** by integrating ERP and production data, ensuring leadership had real-time visibility of product status.
- Optimized raw material stock levels, **reducing production delays** by 15%
- Conducted **Non-Conformance Material Report (NCMR) investigations**, identifying root causes and implementing corrective actions to prevent recurrence.
- Implemented **process capability studies and risk assessments** to evaluate supplier readiness for new product introduction (NPI).

Manufacturing Engineer

Abbott, Atlanta, USA

February 2021 - May 2022

- Supervised daily operations across multiple **assembly lines**, ensuring production schedules, quality standards, and safety protocols were consistently met.
- Monitored and maintained **raw material stock levels**, coordinated with procurement, and ensured timely replenishment to avoid production delays.
- Managed **dispatch activities** through **SAP**, overseeing order fulfillment, shipment tracking, and inventory reconciliation.
- Collaborated with cross-functional teams (supply chain, quality, and engineering) to address **production bottlenecks and documentation gaps**.
- Conducted **daily performance reviews** of line workers, ensuring compliance with work instructions, control plans, and continuous improvement initiatives.
- Supported **process audits and first article inspections (FAIs)** by providing production data,

ensuring supplier and regulatory compliance.

Industrial Engineer

Levram Lifesciences, Mumbai, India

December 2016 - January 2018

- Assisted in MRP (Material Requirements Planning) activities by analyzing inventory levels, lead times, and procurement data, improving on-time availability of raw materials.
- Produced monthly reports using advanced Excel spreadsheet functions to make automated dashboards.
- Designed and implemented interactive Power BI dashboards to track key performance indicators (KPIs) and provide actionable insights into brand-wise sales, market trends, and product performance.
- Conducted feasibility studies on workflow optimization and implemented continuous improvement initiatives that enhanced production and supply chain efficiency.

Education

Master of Science in Industrial Engineering June 2020

University of South Florida, Tampa, USA

- Completed Coursework: Engineering Analytics, Probabilistic Systems Analysis, Optimization using Operational Research, Industrial Information Systems.

Bachelor of Science in Industrial Engineering June 2016

Haldia Institute of Technology, West Bengal

Certifications

- Python Basics for Data Science: Authorized by IBM
- Databases and SQL for Data Science: Authorized by IBM
- Neural Networks and Deep Learning: Authorized by IBM
- Microsoft Certified: Azure Data Fundamentals
- Data Visualizations and Communication with Tableau: By Duke University
