

ARPITA BHAGAT

Business Data Analyst

bhagatarpita79@gmail.com | +1 (857) 763-8188 | [LinkedIn](#) | [GitHub](#)

SUMMARY

Detail-oriented **Business Data Analyst** with 3.5 years of experience in delivering actionable insights to drive business strategies. Proficient in **statistical analysis**, **predictive modeling**, and **data visualization** tools, with expertise in **Python**, **R**, **SQL**, and **Excel**. Proven success in executing **A/B testing**, conducting **Exploratory Data Analysis (EDA)**, and optimizing **data-driven** decision-making across multiple industries. Adept at collaborating with **cross-functional** teams to solve complex problems and improve operational efficiency.

TECHNICAL SKILLS

Methodologies:	SDLC, Agile/Scrum, Waterfall
Languages:	SQL, Python, R
Documentation:	FRD, BRD, SRS
Analysis Skills:	Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis
Other Skills:	Microsoft Visio, JAD, RTM, UAT, Advanced Excel
Databases:	MySQL, MS SQL Server, Cosmosdb, Amazon Redshift, PostgreSQL
ETL Tools:	SSIS, SSAS, SSRS
Business Intelligence:	Power BI, Google Analytics, Tableau, Looker, QlikView
Project Management:	JIRA, Confluence
Operating System:	Windows, Linux, MacOS

PROFESSIONAL EXPERIENCE

Business Data Analyst | Wells Fargo | USA

Jul 2023- Present

- Collaborated to define **key performance indicators (KPIs)** and gathered requirements for 5+ projects through stakeholder interviews, aligning business needs with technical solutions and improving operational efficiency and project delivery by **30%**
- Executed **SQL** queries to develop comprehensive business cases outlining benefits, costs, and risks, providing **data-driven** recommendations that improved decision-making and increased project approvals by 25%
- Devised **predictive models** for customer churn using **Python** and **scikit-learn**, enhancing retention by 10% through targeted interventions
- Spearheaded **A/B testing** and **Exploratory Data Analysis (EDA)** to optimize marketing strategies, increasing lead conversion rates by **15%** through high-performing campaign identification and audience targeting refinement
- Automated sales **data extraction** and **visualization** with Power BI, reducing manual reporting time by 50% through streamlined processes
- Streamlined data extraction processes and created dashboards with **Tableau** and **Google Analytics**, improving sales forecasting by 25%
- Performed comprehensive **market analysis** to evaluate growth rates and **customer behavior**, driving a 25% increase in revenue
- Collaborated with **product** teams to optimize business processes, improving service delivery time by 15% through trend identification
- Utilized **Python** for **data cleaning** and validation, achieving a 30% reduction in processing time to support **analysis** and reporting
- Engaged in **cross-functional** meetings to translate business needs into actionable data solutions, enhancing decision-making across teams
- Participated in user acceptance testing (UAT) for **3** projects, ensuring solutions met business requirements, enabling smooth deployment

Business Data Analyst | Miraicoders Technology | India

Oct 2021 - Aug 2022

- Managed the **validation** 20+ business reports for accuracy in high-stakes reviews, enhancing decision-making effectiveness
- Assisted in developing project timelines and milestones for **5** initiatives, ensuring 100% on-time delivery and improving **project efficiency**
- Designed interactive **Power BI** dashboards to streamline metric monitoring, resulting in a **15%** increase in efficiency
- Applied **regression modeling** to predict trends, enhancing customer retention by 10% through proactive engagement strategies
- Led **customer segmentation** analysis, which increased **marketing** effectiveness by 20% and contributed **\$200,000** in revenue
- Partnered with **analysts** to develop data models, enhancing **forecasting** accuracy for better budgeting

Data Analyst | JP Morgan Chase & Co, KPMG. by Inside Sherpa | India

Aug 2020 - Sep 2021

- Championed a customer segmentation project using **advanced data analytics** to identify key customer groups, enhancing marketing strategies and driving a **\$150,000** increase in product sales within six months
- Administered **SWOT analysis** to identify strengths, weaknesses, opportunities, and threats, facilitating informed **strategic** planning
- Extracted insights from large datasets using **SQL** and **Power BI**, leading to a 30% improvement in resource allocation efficiency
- Implemented **data governance** practices to enhance **data security** & quality, resulting in improved compliance & reliability of **data assets**
- Orchestrated advanced **data mining** and visualization with **SAS** while introducing a **data correction** process, leading to a 20% increase in **ad revenue** and a 15% reduction in **data discrepancies**
- Conducted **supply chain** analysis, optimizing procurement through vendor negotiations, achieving an 18% **cost reduction**

EDUCATION

Northeastern University Boston	May 2024
Master of Science in Information Systems	
University Of Mumbai India	May 2022
Bachelor of Technology in Information Technology	

ACADEMIC PROJECTS

AI-Driven Customer Churn Prediction Model Python, R, Tensor Flow	May 2024 - Aug 2024
- Crafted an AI churn prediction model with Random Forest and Gradient Boosting, processing 100K+ customers - Deployed the model in a real-time dashboard, reducing customer attrition by 18% and enabling the marketing team to act on 85% of high-risk customers	
Operational Efficiency Dashboard Tableau, Power BI	Jan 2024 - Apr 2024
- Built an interactive Tableau dashboards to monitor KPIs, tracking 50+ metrics across departments - Conceptualized Tableau and SQL to automate reporting, reducing manual effort by 40% across 10+ data sources - Achieved a 30% improvement in decision-making speed by providing real-time actionable insights to stakeholders	
META Stock Analysis & Prediction Linear Regression, Finance	Sep 2024 - Dec 2023
- Established a stock prediction system with YFinance, refined accuracy by 25% using technical indicators & diverse data - Trained models with Ridge Regression for predictions, attaining RMSE of 0.0321 & \$322 profit over 541 sessions
