EDUCATION

Master of Science in Information Technology (STEM)

August 2024

Clark University; Worcester, MA

Bachelor of Engineering in Computer Science and Engineering

August 2021

Visveswaraya Technological University; Karnataka, India

SKILLS

Programming Languages: Python (NumPy, Pandas, Matplotlib), SQL, JavaScript, HTML5, CSS

Computer Software/Frameworks: Microsoft Office, Jupyter Notebook, Eclipse, VS Code, MySQL, Git

Data Visualization Tools: Tableau, Power BI

PROFESSIONAL EXPERIENCE

Infosys Limited, Bengaluru, India

September 2021- May 2023

Systems Engineer

- Created intuitive and built models for visually appealing user interfaces for web applications using HTML, CSS, and JavaScript, and translated design mockups and requirements into responsive and interactive interfaces.
- Enhanced user experience, leading to a 15% increase in user engagement metrics. Ensuring compatibility across different browsers and devices achieved a 20% improvement in page load times.
- Pioneered tasks, code reviews, performance optimizations, and cross-functional teamwork with user experience and user interface (UX/UI) designers and backend developers to deliver seamless user experiences supporting the company's risk management and analytics solutions.

PROJECTS

Netflix Data Visualization Dashboard

May 2024

- Built user-friendly interfaces for customized data exploration. Ensured the dashboard was responsive and interactive, Accomplished a 30% increase in user engagement through improved data visualization and search functionalities.

Accenture Job Simulation

March 2024

- Conducted thorough data cleaning and preprocessing to ensure data quality and integrity. Organized, modeled, and analyzed datasets to uncover insights into content trends to inform strategic decisions.

Cyber Attack Detection and Notifying System Using ML Techniques

May 2021

- Applied ML techniques to address security challenges like intrusion, spam, and phishing detection. Structured adaptive methods to automate the security system, resulting in high detection rates and lower false alarm rates.
- Enhanced security system performance with a 25% improvement in detection accuracy and Reduced false alarm rates by 20% by implementing a new security system.

Chitradurga Heritage and Management

September 2019

- Developed a front-end website using HTML and CSS, and implemented robust data management using MySQL.
- The streamlined booking process and enhanced data management, leading to a 30% increase in booking efficiency and a 25% reduction in order processing time

CERTIFICATIONS

Cisco Certified Data Analytics Essential

May 2024

Cisco Certified Python Essentials (PE1)

July 2024

Advanced Certificate Programme in Data Science from IIITB (Specialization in Business Analytics)

April 2023

Data Analysis using Python from IBM

May 2021

Cisco Certified Network Associates (CCNA)

February 2021
