

ARPITHA KOLAR ANAND

Business Analyst

Location: West Haven, CT | Email: arpitha.anand03@gmail.com | Phone: (203) 745-0094

SUMMARY

- Business Analyst with **4.5 years of experience** in business process optimization, data analysis, and project management across diverse industries.
- Experienced in gathering and analyzing business requirements, translating them into comprehensive BRD, FRD, and Use case documentation to support business goals.
- Proficient in designing and optimizing workflows using BPMN and Agile methodologies, ensuring process efficiency and seamless stakeholder collaboration.
- Skilled in leveraging data visualization tools such as Power BI, Tableau, and Looker to deliver actionable insights and support data-driven decision-making.
- Adept at working with enterprise tools including Jira, Confluence, SAP (Materials Management, FICO), and Microsoft Dynamics 365 to streamline operations and improve productivity.
- Strong knowledge of SQL, Python (Pandas, NumPy), and R for data analysis, statistical modelling, and predictive analytics to support business intelligence initiatives.
- Expertise in business process improvement through Lean Six Sigma methodologies, conducting impact analysis, and driving continuous improvement initiatives.
- Excellent communication, negotiation, and stakeholder management skills with a proven track record of collaborating with cross-functional teams to achieve business objectives.

TECHNICAL SKILLS

- **Business Analysis & Documentation:** Requirement Gathering, BRD, FRD, Use Case Development, Process Modelling (BPMN), Workflow Design, User Stories, Gap Analysis, Impact Analysis, Business Case Development
- **Data Analysis & Visualization:** Power BI, Tableau, Looker, Advanced Excel (Pivot Tables, VLOOKUP, XLOOKUP, Power Query), SQL (MySQL, SQL Server, PostgreSQL), Python (Pandas, NumPy), R
- **Enterprise Tools:** Jira, Confluence, SAP (Materials Management, FICO), Microsoft Dynamics 365, Salesforce CRM
- **Project Management & Methodologies:** Agile (Scrum, Kanban), Waterfall, SDLC, Stakeholder Management, Change Management, Risk Management
- **Business Process Improvement:** Root Cause Analysis (RCA), Lean Six Sigma, DMAIC, Process Reengineering, Continuous Improvement (Kaizen)
- **Soft Skills:** Critical Thinking, Problem-Solving, Communication, Negotiation, Stakeholder Collaboration, Time Management, Presentation Skills
- **Cloud & Integration Tools:** AWS (S3, Redshift, Glue), Google Cloud (BigQuery), Azure (Synapse, Data Factory), Informatica, Snowflake
- **Data Analysis Techniques:** Data Cleansing, Data Wrangling, Statistical Analysis, Time Series Analysis, A/B Testing
- **Healthcare & Compliance Knowledge (if applicable):** HIPAA, EMR, EHR, ICD-10, SOX, AML
- **Version Control & Collaboration:** Git, GitHub, Trello, Microsoft Teams, Slack
- **Other Tools:** Microsoft Visio, Lucidchart, ChatGPT

WORK EXPERIENCE

CVS Health

August 2023 – Present

Business Analyst

- Collaborated with stakeholders, including business users and IT teams, to gather and analyze business requirements, ensuring alignment with project goals, and translating them into actionable insights for process enhancements.
- Developed comprehensive process workflows using BPMN methodologies to optimize operational efficiency, eliminate redundancies, and enhance cross-functional collaboration between departments.
- Designed and implemented Power BI dashboards and reports to provide actionable insights, enabling leadership to make data-driven decisions by analyzing key performance indicators (KPIs) and operational metrics.
- Coordinated Agile teams by managing backlog prioritization, sprint planning, and facilitating daily stand-ups to ensure project deliverables were met within deadlines while addressing evolving business needs.
- Conducted in-depth impact analysis for proposed system enhancements and process changes, ensuring seamless integration with existing business processes while mitigating potential risks and challenges.

Infosys BPM

August 2019 – July 2021

Business Analyst

- Conducted requirement elicitation sessions with key business stakeholders to gather and document business needs, translating them into comprehensive BRD and FRD documentation for development teams.
- Developed business process models and workflow diagrams using Microsoft Visio and Lucidchart to visualize end-to-end processes, identify bottlenecks, and recommend process optimizations to stakeholders.
- Utilized Jira and Confluence to track project progress, document meeting notes, and collaborate with cross-functional teams, ensuring alignment on project objectives and smooth execution of Agile sprints.

- Performed detailed gap analysis by comparing current and future state processes, identifying inefficiencies, and providing actionable recommendations for process reengineering and automation initiatives.
- Designed and implemented SAP FICO solutions to streamline financial operations by collaborating with business users and technical teams to configure and validate financial data accuracy and compliance.
- Led multiple UAT sessions by preparing test scripts, coordinating with end-users, and ensuring all business requirements were met before deployment, resulting in minimal post-implementation issues.
- Prepared executive-level reports and dashboards using SQL and Tableau to provide data-driven insights into key business performance metrics, trends, and areas of improvement for decision-making.
- Collaborated with stakeholders across finance, supply chain, and IT departments to ensure project deliverables aligned with business objectives and compliance with industry standards and regulations.

Trigent Software

March 2018 – July 2019

Business Analyst

- Assisted in gathering business requirements through interviews, workshops, and document analysis, translating them into technical solutions by collaborating closely with development teams and stakeholders.
- Created process flow diagrams and detailed use cases to streamline business processes, improve efficiency, and ensure accurate documentation of business and functional requirements for technical teams.
- Conducted root cause analysis to identify system inefficiencies and inconsistencies, proposing data-driven solutions and process enhancements that contributed to improved business operations.
- Developed SQL queries to analyze large datasets, extract valuable business insights, and support key stakeholders in data-driven decision-making processes across various business functions.
- Assisted in the implementation of Agile project management methodologies by facilitating sprint planning meetings, defining user stories, and ensuring successful delivery of project milestones.
- Conducted stakeholder training sessions to ensure seamless adoption of new process workflows, providing user-friendly documentation and post-implementation support to resolve potential challenges.
- Engaged in continuous process improvement initiatives by analyzing existing workflows, identifying gaps, and recommending optimizations to enhance business efficiency and reduce operational costs.
- Documented comprehensive user stories and acceptance criteria to guide development teams in achieving project objectives while ensuring alignment with business goals and user expectations.

PROJECTS

Customer Experience Enhancement for Retail Chain

- I analyzed customer journey data using Power BI and SQL to identify pain points and recommend improvements.
- Developed user stories and collaborated with stakeholders to align requirements with business goals.
- Designed workflow automation using Microsoft Dynamics 365 to enhance order fulfillment efficiency.

Healthcare Claims Processing Optimization

- Conducted gap analysis to identify inefficiencies in claims processing workflows and proposed automation solutions.
- Implemented Lean Six Sigma methodologies to reduce processing time and improve compliance with HIPAA regulations.
- Designed dashboards in Tableau to monitor claims performance and identify key operational trends.

Supply Chain Demand Forecasting

- Utilized Python and SQL to develop predictive models for optimizing inventory levels and reducing stockouts.
- Worked with cross-functional teams to implement a data-driven decision-making framework for demand planning.
- Presented actionable insights through Power BI dashboards to improve supplier collaboration and performance.

EDUCATION

Master of Science in Computer Science

Aug 2021 – May 2023

University of New Haven, West Haven, CT | GPA: 3.75/4

Bachelor of Engineering in Computer Science and Engineering

Feb 2015 – Jun 2019

Visvesvaraya Technological University (VTU), India | GPA: 8.53/10

CERTIFICATIONS

- Infosys Global Agile Developer Certification
- Infosys Certified Database and SQL Professional
- Infosys Certified Selenium Basic Automation Tester
