Phone: (508)-654-3950

Email: arun.ramamurthy.86@gmail.com

11185 Kelowna Rd, Apt 43

San Diego, CA - 92126

EDUCATION:

Master of Science (MS) in Computer Science Aug 2012 - Present

San Diego State University, CA, USA Expected Graduation: Dec 2014 GPA: 3.51/4

Related Courses: Advanced OOP, Advanced Robotics, Computer Security, Computer Vision, Cryptography, Database Theory Implementation, High Speed Net Design, Programming of Geographical Information Science (GIS), Spatial Database and Theory of Parallel Algorithms.

Bachelor of Engineering (BE) in Computer Science and Engineering Sept 2004 - Apr 2008

Anna University, Chennai, Tamil Nadu, India GPA: 3.76/4

Related Courses: Artificial Intelligence, Computer Architecture, Computer Networks, Compiler Design, DBMS, Data Structures, Design and Analysis of Algorithms, Graphics and Multimedia, OOP, Operating Systems, Software Engineering and System Software.

TECHNICAL SKILLS:

Programming Languages : PL/SQL, SQL, Java, C++, C#, C and MATLAB.

Development Tools : PL/SQL Developer, Oracle Forms 10g, Oracle Reports 10g, Eclipse IDE, Oracle Workflow Builder, Microsoft Visual Studio, Oracle JDeveloper, Toad, Discoverer Reports, Esri and SQL *Plus.

Web Technologies : HTML, XML, JSP, JavaScript and PHP.

Database : Oracle 9i & 10g, MS Access and SQL Server.

Oracle Applications : Oracle Applications 11i and R12.

PROFESSIONAL EXPERIENCE:

Environment Systems Research Institute (Esri), Redlands, USA May 2013 - Aug 2013

Product Engineer Intern - Esri Geodatabase Product Services

Responsibilities:

- Understanding the architecture of Geodatabase.
- Converting and improving existing VB test scripts into C# test scripts.
- Creating new C# test scripts and bug fixes for the existing Esri products issues and problems.

Tata Consultancy Services (TCS), Kolkata and Chennai, India Nov 2008 - Aug 2012

Project #1: Anchor Electricals Private Limited Mar 2009 - Sept 2010

Assistant Systems Engineer - Anchor Electricals Private Ltd. Oracle Apps Implementation.

Responsibilities:

- Development of Oracle Forms, Reports & Workflows, inbound/outbound interface PL/SQL programs.

Project #2: Carnival Corporation & PLC Oct 2010 - Aug 2012

Systems Engineer - Carnival Corporation & PLC Oracle Apps Implementation, Support & Maintenance.

Responsibilities:

- Development, support and maintenance of all standard and custom components in Oracle Reports, Oracle Form and UNIX/Linux, Perl and PL/SQL Programs.
- Involved in functional and technical design document preparation, patch management, test script preparation, unit testing and user acceptance testing.

PROJECTS:

▪ **Study of the impact of Network Impairments on Adaptive Streaming , High Speed Net Design**

Investigated the networking requirements of Adaptive Streaming video on demand services such as Hulu, Netflix and Vudu and studied the impact of network impairments on them.

Technology used: Linux, Wireshark

▪ **Design and Analysis of GopNet in comparison with 802.11n, High Speed Net Design**

Analyzed the shortcomings of existing 802.11n and designed a new MAC level network protocol, GopNet which is more efficient than 802.11n.

▪ **A GUI Map of list of breweries in San Diego County, Programming in GIS**

Designed a GUI for list of breweries in San Diego with the standard tools such as find distance, zoom in/out, create a new layer and details of the existing and loaded layer.

Technology used: ESRI-Map Object Java and Java Swing

▪ **J2EE Project at Tata Consultancy Services, Initial Learning Program (ILP) Training:**

Development of a website with binary search engine capability that enabled users to search and retrieve information from a database based on the various input combinations.

Technology and Database used: Java Servlet, JSP and MYSQL

▪ **Multi-level security approach to steganography, Bachelors Project Thesis at Anna University:**

By embedding the hybrid concepts from visual cryptography and steganography together with custom tweaks, a three layer protection was defined to a message which needs to be safely transferred. This improved the overall security and confidentiality of the system.

Technology used: JAVA

TRAINING AND CERTIFICATION:

- Completed Sun Certified Java Programmer (SCJP) certification with 91% credentials.
- Underwent the “Infosys Campus Connect Program” during the academic year 2006-2007.
- Worked as an intern for Indian Airlines - Information Technology Department in implementing and troubleshooting air ticket booking and maintenance systems.

HONORS:

- Served on the editorial committee for CSE Department Magazine for the academic year 2005-2006.
- Served on the editorial board for Mathematics Olympiad magazine for the academic year 2006-2007.
- Won Silver Medal in the 3rd division Men's Tribology - CTTF Inter-Institution Table Tennis League 2001-2002 and played professional Table Tennis for about 6 years
