Epidemiology & Public Health Research Professional | Skilled in Disease Surveillance, Biostatistics, and IRB-Compliant Study Design

PROFESSIONAL SUMMARY

Public health professional with expertise in **epidemiology, data analysis (SAS, SPSS, Excel, GIS), and IRB protocol development**. Skilled in qualitative and quantitative research methods, with experience supporting public health interventions and surveillance projects. Recognized for problem-solving, collaboration, and delivering data-driven insights that strengthen research outcomes and inform policy development. Dedicated to fostering team-oriented environments and contributing to impactful public health advancements.

CORE COMPETENCIES

- **Epidemiology & Public Health:** Epidemiologic Study Design, Disease Surveillance (ESSENCE, MERLIN), Outbreak Investigation, Program Evaluation, Health Policy Analysis, Community Health Outreach
- **Data Analysis & Biostatistics:** SAS, SPSS, ArcGIS, NVivo, REDCap, Microsoft Excel (data cleaning, visualization, reporting), Statistical Modeling, Data Interpretation
- **Research & Laboratory Methods:** IRB Protocol Development, Survey Design, Qualitative & Quantitative Analysis, Literature Review & Systematic Review (Covidence), Scoping Review, RNA Extraction, PCR & Gel Electrophoresis, Biosafety Protocols
- **Professional Competencies:** Technical Writing & Reporting, Research Ethics & Compliance (CITI Certified), Cross-Functional Collaboration, Public Health Communication, Community Engagement, Patient/Participant Recruitment

PUBLIC HEALTH & RESEARCH EXPERIENCE

Sylvester Comprehensive Cancer, Research Assistant, Miami Jan 2025 – Jul 2025

- Implemented **IRB-protocols**, including participant recruitment and informed consent, ensuring compliance with ethical standards.
- Conducted **structured interviews** with SCD participants; performed **qualitative analysis** via **NVivo** generating insights in aims.
- Managed and supported **research data** contributing **evidence-based strategies** addressing healthcare challenges by SCD patient.

Florida Department of Health, Public Health Intern, Miami Sep 2024 – Dec 2024

- Produced **Epi-Monthly reports**, synthesizing **epidemiologic data** guiding **data-driven public health policies and interventions**.
- Learned to monitor **disease trends** utilizing **ESSENCE and MERLIN system**, enhancing disease detection and reporting accuracy.
- Contributed **drowning prevention and water safety campaigns**, targeting high-risk populations to reduce preventable injuries.

ICMR-Indian Council of Medical Research, Public Health Intern, India May 2024 – Jul 2024

- Conducted **large-scale epidemiological field surveys** to identify malaria transmission hotspots, informing vector control strategy.
- Utilized **SPSS and GIS-based spatial analysis** to map disease prevalence and assessed geographic risk factors for malaria spread.
- Performed **molecular diagnostics** on COVID-19 specimens while adhering to **strict laboratory biosafety and ethical protocols**.

ADDITIONAL EXPERIENCE

Patti & Herbert Wellness Center, Facility Operation Assistant May 2024 – Jul 2025

- Managed daily operations and patron services while applying **organizational and time-management skills** to maintain efficiency.
- Improved the patrons' experience by addressing inquiries and concerns promptly, demonstrating **effective communication skills**.

University of Miami Auxiliary Services, Facility Services Assistant Sep 2023 – Apr 2024

- Applied **adaptability and problem-solving skills** to unexpected technical situations, contributing to effective smooth operations.
- Monitored and maintained daily facility conditions to ensure safety, cleanliness, and adherence to **ethical institutional standards**.

Multiple Clinics, Associate Dentist, India Sep 2022 – Jul 2023

- Delivered **preventive health education** and **patient counseling** to improve oral hygiene compliance and long-term outcomes.
- Applied **clinical diagnostics and proper treatment planning** with a focus on **evidence-based protocols and quality standards**.

ITS Center for Dental Studies and Research, Dental Intern, India Sep 2021 – Sep 2022

- Provided comprehensive patient care through examinations, preventive treatments, and oral health education, while contributing to **clinical documentation** and exposure to evidence-based protocols.
- Completed certified training in **molecular diagnostics** (DNA/RNA extraction, **polymerase chain reaction (PCR)**, **gel electrophoresis**, flow cytometry), strengthening research skills and bridging clinical practice with laboratory ethical applications.

EDUCATION

University of Miami | Master of Public Health, Epidemiology (GPA: 3.80) 2023-2025

Chaudhary Charan Singh University | Bachelor of Dental Surgery (GPA: 3.89) 2016-2022

Dr. Bhimrao Ambedkar University | Bachelor of Science 2013-2016

RESEARCH PROJECTS

Volunteer (BRIDGE Scoping Review Project), Remote

Sep 2025 –Present

- Supporting a global, multi-institutional study on **epidemic governance and regional health policy** in the Global South.
- Conducting **scoping literature reviews, high-volume article screening (120–300/week), and data extraction using Covidence.**

Capstone Project – Sickle Cell Disease (IRB Approved)

Summer 2025

- Designed and led an **IRB-approved study** on home-based pain management for SCD patients, applying **clinical research skills.**
- Created all **study materials** and analyzed data after collecting data **via social media platforms**, demonstrating proficiency in study.

Cancer Epidemiology Research Proposal

Spring 2025

- Conducted a **systematic review of 35+ peer-reviewed studies** on the gut microbiome's role in **breast cancer immunotherapy.**
- Proposed **research framework** to guide future clinical and translational cancer epidemiology studies, advancing future strategies.

Monkeypox Surveillance Project

Fall 2024

- Analyzed **67 Mpox cases** using **SAS** and produced data visualizations using **Excel** for integration into state-level policy reports.
- Authored an **Epi-Monthly report** guiding **Miami-Dade public health interventions**, showcasing strong research methodology.

Environmental Health Survey

Fall 2023

- Designed and administered survey assessing **secondhand smoke exposure** in Coral Gables/Civic Center, valuable data for analysis.
- Applied **Excel-based data analysis** and analyzed to identify the trends and presented **public health findings** to faculty and peers.

VOLUNTEER EXPERIENCE

NAMI Miami-Dade

Apr 2025 – Jul 2025

- Contributed to **community outreach campaigns** promoting mental health awareness, showcasing skills in **public communication.**
- Applied basic computer and problem-solving skills to **NAMI Walk small projects**, enhancing skills in **public health advocacy.**

Lotus House Women's Shelter

Apr 2025

- Assisted in managing hygiene supplies and daily food distribution, applying **service delivery** to improve community health.
- Contributed resident support allocation improving living conditions for residents, applying **teamwork and organization skills.**

CERTIFICATIONS

- **CITI Certified**
- **Adult First Aid / CPR / AED Certified**

LANGUAGES

- Fluent in **English** and Native in **Hindi.**
